Diagram of Location/Site:	

Minimum specifications for a registered loading/offloading site are an area of at least fifty (50) metre radius of all inflammable material, save for live trees, with a constructed roadway or laneway between the site and a made gazetted road clear of all inflammable material to a width of four (4) metres.

Loading and offloading on this site as well as travel to and from this site is permitted during vehicle movement bans provided that a mobile operational fire fighting unit (as specified in the regulations) is in attendance during loading and offloading operations.

Please note that additional fire safety conditions may be specified.

The above site and laneways ~~meet~~/does not meet minimum conditions (strike out as required)

Inspected by: _____ Rank: _____ Date: _____
