EXECUTIVE ADDRESS

Currently it is estimated that over 400,000 Western Australians have a disability and these people face many challenges in accessing services, facilities and information as well as meaningful participation in community life.

It is a requirement of the Disability Services Act 1993 (amended 2004) that the Shire of Ravensthorpe reviews and implements a Disability Access and Inclusion Plan (DAIP) which outlines the ways in which the Shire will continue to ensure that people with disability have equal access to its facilities, information and services. The Shire will endeavour to achieve this in a number of practical and diverse ways.

The Shire's interpretation of being an accessible and inclusive community is ensuring that all Council venues, facilities and services, both in-house and contracted, are openly accessible to people with disability. It is important that the Shire recognises that people with disability have the opportunity to make their own contribution that has an impact upon the social, economic and cultural life in the Shire. This means that our principal goal of growing our community does not have any constraints for people who have a disability.

It is important that the 2019 - 2024 DAIP is in place to ensure barriers to access and inclusion are addressed and facilities and services are well planned for. People with disability who reside in regional areas have a right, as far as is reasonable, to expect to have access to similar services provided to people with disability who reside in metropolitan areas. As we move into the future the Shire is committed to meeting the objectives outlined in the DAIP and this reviewed and updated Plan will provide the basis on which to build and enhance the way of life for individuals with disabilities and provide the same opportunities, rights and responsibilities enjoyed by other people in the Shire.

Consultation is essential in any vibrant community and no barriers should exist to prevent the consultative process being available to those involved with the disability community. As a Shire we are committed towards ensuring that all changes of contractors and partnerships with local community groups and businesses facilitate inclusion of people with disability - particularly when making decisions that impact community access.

ACKNOWLEDGEMENTS

The Shire of Ravensthorpe acknowledges the input received from individuals and groups within the community, which has been of assistance in the preparation of this Disability Access Inclusion Plan for 2019 - 2024. Further thanks to the Access and Inclusion Officers at the Department of Communities for reference material, advice and direction, and completing this review.

DEFINITIONS

Access: refers to the physical ability to get to, into, and around facilities. This access is created by removing structural barriers and including mechanisms to enable structural access.

Facilities: any infrastructure that is owned or managed by the Shire of Ravensthorpe, such as halls, public toilets, accessible parking, footpaths, recreation spaces and service outlets.

Council / Shire: Shire of Ravensthorpe.

DAIP: Disability Access and Inclusion Plan 2019 - 2024.

Inclusion: refers to the ability to participate as fully as possible in programs and services provided by organisations in an integrated and holistic manner that does not ostracise, embarrass or humiliate.

Information: any information provided by the Shire, regardless of format, such as written (print, electronic) and verbal (face-to face, telephone).

Services: any services provided by the Shire, such as administrative, essential living community development, recreation.

LEGISLATION

The Australian Commonwealth, State and Territory governments have developed the National Disability Strategy in partnership under the auspices of the Council of Australian Governments. The Australian Local Government Association has also assisted in the development of the Strategy and there is a strong role for local governments in its implementation. The shared vision is for an inclusive Australian society that enables people with disability to fulfil their potential as equal citizens. The relevant roles and responsibilities on disability access and inclusion are governed by several statutes.

These include:

- Commonwealth Disability Discrimination Act 1993;
- Disability Services Act 1993 (amended 2004);
- Western Australian Equal Opportunity Act 1984; and
- United Nations Convention on the Rights of Persons with Disabilities.

It is a requirement of the Disability Services Act 1993 that all local governments, develop and implement a DAIP to improve access and inclusion across seven outcome areas, in regards to services and events, buildings and facilities, information, quality of service, complaints, consultation processes and employment. These plans benefit people with disability, the elderly, young parents and people from culturally and linguistically diverse backgrounds.

Shire of Ravensthorpe

Disability Access and Inclusion Plan 2019 - 2024

1.0 ABOUT THE SHIRE OF RAVENSTHORPE

The Shire of Ravensthorpe covers an area of some 12,872 square kilometres in the south of Western Australia. It encompasses several national parks, including the Frank Hann National Park in the north and the world biosphere, Fitzgerald River National Park on the south coast. The Shire has a population base of approximately 1,733 persons (ABS 2016 data), of which 54% are male and 46% are female, with 1.7% identifying as indigenous Australians. The median age of people within the Shire was 45 years and children aged under 14 years made up almost 18% whilst people aged over 60 years almost 28% of the population which is higher than state (19%) and national (21%) levels.

The Shire has a business centre and main town of Ravensthorpe, with four surrounding settlements of Fitzgerald, Hopetoun, Jerdacuttup and Munglinup. The main industries include mining of gold, nickel, graphite and lithium; pastoral activities of grain, lupins, canola, sheep, cattle and general farming; and tourism of the various attractions such as the Fitzgerald biosphere, Fitzgerald National Park and the south coast.

The Shire is blessed with an abundance of recreational facilities which would serve a growing community extremely well. The indigenous inhabitants were the Wudjari Aborigines, the first white pastoralists bringing sheep to Cocanarup in 1868. Gold was discovered in the area in 1898 and soon the rush began as hopeful prospectors made their way to the Phillips River Goldfield. The town was gazetted in 1900 but there were no roads and access was difficult. The port of Mary Ann Haven, later called Hopetoun, was soon built to facilitate shipping access and a railway followed in 1909

1.1 Vision Statement

Ravensthorpe Shire's vision and mission statements have recently been revised to be more reflective of community sentiments following the strategic community plan consultation. Supporting the Shire's envisaged strategic direction:

Our Vision:

"Growing our Community."

Our Mission:

"To enhance sustainability, growth and diversity."

Our Values:

In respecting the community, Council and Staff will promote and enhance the following values in our interactions:

- Honesty and Integrity;
- Strong transparency and customer service;
- Quality communications;
- Fairness, equity and sensitivity; and
- Financial accountability.

1.2 Functions, Facilities and Services

Local government in Western Australia is empowered through the Local Government Act 1995. The primary role of local government is to provide good governance to constituents within its municipality. This broadness gives Councils the scope to perform a number of functions and to respond to local issues. The Shire of Ravensthorpe is responsible for a range of facilities and services in the district, including but not limited to:

Services to property: construction and maintenance of Shire owned buildings and roads, footpaths and cycle facilities; land drainage and development; waste collection and disposal; litter control and street cleaning; planting and caring for street trees; numbering of buildings and lots; street lighting; emergency management; and bush fire control.

Services to the community: provision and maintenance of playing areas, parks, gardens, reserves and facilities for sporting and community groups; management of recreation centre and pool; environmental health services; information services; seniors support service; youth services and community events.

Regulatory services: planning of road systems, sub-divisions and town planning schemes; building approvals for construction, additions or alterations to buildings; environmental health services and ranger services, including pet/animal control and the development, maintenance and control of parking.

General administration: the provision of general information to the public and the lodging of complaints and payment of fees including rates and licences.

Processes of government: ordinary and special Council and committee meetings; electors' meetings and election of Council Members; meetings and community consultations.

1.3 Profile of Disability

The Australian Bureau of Statistics 'Survey of Disability, Ageing and Carers Australia 2018'(SDAC 2018) estimated there were 411,500 people who identify as having some form of disability (16.4% of the total Western Australian population). In a broader context around one in nine (10.8%) of Australians provided unpaid care to people with disability and older Australians.

The Shire will continue to strive towards improving access and inclusion for people with disability, their families and carers.

The Disability Services Act 1993 outlines six (6) desired outcome areas to be considered and addressed by the Shire including:

1. People with disability have the same opportunities as other people to access the services of, and any events organised by, the relevant public authority;
2. People with disability have the same opportunities as other people to access the buildings and other facilities of the relevant public authority;
3. People with disability receive information from the relevant public authority in a format that will enable them to access the information as readily as other people are able to access it;
4. People with disability receive the same level and quality of service from the staff of the relevant public authority;
5. People with disability have the same opportunities as other people to make complaints to the relevant public authority; and
6. People with disability have the same opportunities as other people to participate in any public consultation by the relevant public authority.

2.0 PROGRESS SINCE 1995

The Shire of Ravensthorpe is committed to facilitating the inclusion of people with disability through the improvement of access to its facilities and services. Towards this goal the Shire adopted its first Disability Service Plan in 1995 to address the barriers within the community for people with disability. The Disability Services Plan addressed both its statutory requirements under the WA Disability Services Act (1993) and its obligations under the Commonwealth Disability Discrimination Act (1993).

Since the adoption of the initial Disability Services Plan, the Shire has implemented many initiatives and made significant progress towards better access.

In 2019 the Shire of Ravensthorpe undertook to review its Disability Services Plan, consult with key stakeholders and draft a new Disability Access and Inclusion Plan to guide further improvements to access and inclusion.

The process included:

1. Examination of the existing Disability Services Plan and review to see what has been achieved and what still needs to be progressed;
2. Examination of other council documents and strategies;
3. Investigation of current practice in access and inclusion;
4. Consultation with key staff; and
5. Consultation with the community

The community was engaged through advertising in the local newspapers that they could provide input into the development of the plan. They were invited to contact Council officers in February/March 2019 to discuss some of the difficulties they were experiencing in accessing Council services/facilities or in just getting around the community.

Since the adoption of the initial DSP, the Shire has implemented many initiatives and made significant progress towards better access. Some of these are highlighted below:

- Comprehensive Shire facilities audit undertaken;
- Renovation of several public toilet facilities to meet access standards across the Shire;
- Installation of electronic swipe access doors at recreational facilities;
- Audit and improvement of ACROD parking bays in the Entertainment Centre;
- Ramp access installed at the Shire Building, town hall and other community facilities in the district;
- Accessible footpath installed between the town centre and recreational complex in Ravensthorpe;
- Shire forms, applications, documents and lodging of complaints available in electronic format;
- Provision of Unisex Disabled toilets at Club facilities around Shire;
- Adoption and Implementation of DAIP 2013 – 2018;
- Staff training has been encouraged and budgeted, for effective development of inclusive skill sets;
- An Access Policy was developed and endorsed by Council;
- Information was made available in alternative formats on request; and
- Web site redesign to ensure ease of access to information in a user friendly manner.

3.0 ACCESS POLICY STATEMENT FOR PEOPLE WITH DISABILITY, THEIR FAMILIES AND CARERS

The Shire of Ravensthorpe is committed to ensuring that the community is accessible for people with disability, their families and carers. The Shire believes that people with disability, their families and carers who live in country areas should be supported to remain in the community of their choice.

The Shire of Ravensthorpe is committed to consulting with people with disability, their families and carers and, where required, disability organisations to ensure that barriers to access are addressed appropriately. The Shire is further committed to ensuring that its agents and contractors work towards the desired outcomes in the Disability Access and Inclusion Plan 2013 - 2018.

The Shire of Ravensthorpe is committed to achieving the following outcomes:

Outcome 1 - Existing functions, facilities and services are adapted to meet the needs of people with disability.

Council will endeavour to be adaptable in responding to the barriers experienced by people with various disabilities, including people with physical, sensory, cognitive and psychiatric disabilities.

Council will ensure that all policies and practices that govern the operation of Council facilities, functions and services are consistent with Councils Policy on access and inclusion.

Outcome 2 - Access to buildings and facilities is improved.

Council will undertake to incorporate the needs and priorities regarding access for people with disability, identified during consultations, into its submission for its capital works improvement program. Modifications will commence as funds are made available.

Council will undertake to liaise with developers to increase their awareness of the access requirements of people with disability.

Outcome 3 - Information about functions, facilities and services is provided in formats which meet the communication requirements of people with disability.

Council will produce all of its information on Council facilities, functions and services using clear and concise language.

Council will advise the community that, upon request, information about Council functions, facilities and services can be made available in alternative formats, such as large print.

Outcome 4 - Staff awareness of the needs of people with disability and skills in delivering advice and services are improved.

Council will undertake to ensure that staff are aware of the key access needs of residents with disabilities and people with disability who visit the local government area in relation to the provision of services.

Where required, Council will seek expert advice from the disability field on how to meet the access needs of people with disability.

Outcome 5 - Opportunities for people with disability to participate in public consultations, grievance mechanisms and decision making processes are provided.

Council will ensure that information is available in clear and concise language on how residents can participate in decision making processes, public consultations and grievance mechanisms.

Council will advise the community that this information can be made available in alternative formats upon request.

Council will also undertake to support people with disability to attend meetings of Council.

4.0 SHIRE OF RAVENSTHORPE ACCESS POLICY

People with disability – Access

Policy Objective: To provide guidelines to improve access to public domain buildings for all individuals.

Policy

Philosophy

Council recognises that access is the key to independence and will actively plan for and promote the provision of reasonable access to public domain buildings. In addition to people in wheelchairs, people with disability may also be described as the vision or hearing impaired, the elderly with movement, balance or strength limitations, people with cerebral palsy, those injured in motor vehicle or other accidents, and those suffering temporary or permanent impairment from other causes including mental health.

Objectives

To provide physical access:

1. To assure that access will be a major design consideration for public facilities provided by the Shire.
2. To investigate and refit existing Council buildings and facilities where such expenditure is considered warranted.
3. To encourage such design considerations for private buildings and facilities that will require public access.

Strategies

1. To precipitate appropriate discussions between Council employees, property developers, architects, designers, builders, building owners and business proprietors.
2. To give due consideration to the Building Code of Australia and impose the requirements of Australian Standards in the design of all buildings and facilities, parking, kerbs, paths, ramps, steps, entrances, landings and utilities, provided additional expenses do not affect the overall viability of a particular building or facility.
3. To establish, where warranted, directional information for Council facilities providing public access.
4. To apply the Building Code of Australia and Australian Standards and, where warranted, impose conditions of development approval for buildings and facilities that, in the opinion of the Shire, will require general public usage.
5. To encourage project design and completion to take into consideration adjoining and other local land uses, topographical features or other possible detrimental effects.
6. To ensure community input is obtained in appropriate matters.

5.0 DAIP REVIEW 2013 – 2018

As per the Shire's DAIP 2013-2018, the Shire has submitted a Progress Report on the Implementation Plan to the Department of Communities each year since its inception. This report is also prepared each year for endorsement by Council. Both the Implementation Plan 2013-2018 and respective Progress Reports are kept for reference within the Shire and are available for review upon request.

From section 2.0 'Progress From 1995' above, a number of initiatives have been implemented as a direct result of the planning and development of the DAIP 2013 – 2018. However, the Shire has undergone major key staff changes over the last three years with some of the outcomes and strategies for the 2013 – 2018 Plan not being fully progressed. It has therefore been determined that a further audit is not required for the development of the 2019 - 2024 DIAP, however, these outcomes and strategies for continued improvement remain in place as priority, for the 2019 - 2024 Plan.

In early 2019, the Shire undertook to review its DAIP 2013-2018 and draft a new five year DAIP to guide further improvements to access and inclusion. The review process included the following:

- Examination and analysis of the 2013-2018 DAIP and DAIP Implementation Plan by Shire staff;
- Internal assessment of the existing DAIP
- Direct consultation from suitably informed local service providers and community members for input on the outcomes of the 2019 - 2024 Plan;
- Analysis of the findings and recommendations from the wider community consultation undertaken as part of the 2013 – 2018 Plan review; and
- Consideration of best practice in other local governments and the Department of Communities.

The Shire of Ravensthorpe's inaugural Disability Service Plan (DSP) was developed in 1995. The primary purpose of the plan was to ensure that the Shire provided an accessible community to people with disability, their families and carers. The Disability Service Plan was designed to ensure that people with disability have the opportunity to access and use services, facilities and functions within the Shire. The DSP was reviewed and amendments made in 2006, resulting in 2 subsequent DAIP's 2007–2011 and 2013-2018. This, the 2019 review, will produce the DAIP and Implementation Plan for 2019 – 2024 guiding the Shire to improved access and inclusion.

6.0 DEVELOPMENT OF THE DAIP 2019 – 2024

6.1 Responsibility for the planning process

The Chief Executive Officer has ultimate responsibility to oversee the development, implementation, review and evaluation of the DAIP. The executive group directly progress the Plan and the Council endorse the final DAIP and it is the responsibility of the executive group for implementation.

6.2 Consultation process and report

The Disability Services Act Regulations set out the minimum consultation requirements for public authorities in relation to Disability Access and Inclusion Plans. Local Governments must call for submissions (either general or specific) by notice in a newspaper circulating in the Local Government area or on any website maintained by or on behalf of the Local Government. Other communication mechanisms may also be used.

To ensure individuality of the DAIP outcomes for the Shire, consultation with community members, Shire staff and other stakeholders was an integral element of the review and development of the DAIP 2019 - 2024. The consultation aspect of the DAIP review included the seeking of feedback and suggestions on areas where the Shire could improve access and inclusion around the Shire and specific to both the 2007 and 2013 DAIPs.

In January / February 2019 the following consultation methods were implemented:

- The community was invited to contact Council Members and Shire Officers from February to May 2019 to discuss some of the difficulties they were experiencing in accessing Council services/facilities or in just getting around the community;
- A notice regarding the review and link to the existing DAIP 2013 - 2018 on the Shire of Ravensthorpe website;
- A notice regarding the review and advice on obtaining a copy was placed in the local commercial newspaper (Community Spirit);
- Notices placed on various community noticeboards in the Shire;
- Investigation and liaison with peer LGAs;
- Direct communication with local community groups and organisations; and
- Email / memo to employees of the Shire.

Council has advised, through the local newspaper, direct community contacts, and the Shire Web site that copies of the finalised plan will be available to the community upon request and in alternative formats if required, by hard copy in standard and large print, electronic format, personal communications, by email and on the Council website.

6.3 Findings of the consultation

The community consultation as part of the DAIP review raised issues that were identified as similar to issues that are experienced by other local governments. As noted in section 5.0, the review and consultation found that some of the initial objectives in the previous Plans had not been fully progressed and that a new plan was required to ensure currency and relevance. The review/consultation also identified a variety of new barriers to access inclusion, to be addressed in the Disability Access and Inclusion Plan 2019 - 2024. One remaining barrier was the quality of pathway network provision linking key facilities within the Shire that had not been adequately addressed by the streetscape initiative. Also better signage to public amenities, dumpage points and improved upper floor access to the Entertainment Centre.

Based on the findings of the review and consultation, new strategies within the DAIP have been identified where there is potential for the Shire to improve access and inclusion. It was also recommended that there needs to be a greater focus on collaborative community development initiatives in the DAIP, as the community appears keen to develop effective working relationships with the Shire to make the most of social capital opportunities on limited funds.

6.4 Access Barriers

While the review and consultation noted a level of achievement in improving access it also identified a range of barriers that can be improved. These include:

- Footpath linkages between the Town Hall through the laneway to the Red Room in the Community Hall need improvement;
- Toilets at Jubilee Park. Suggested finger post sign visibility improvement and improved access from the street to the toilets.
- Toilets in Rangeview Park. Suggested finger post sign visibility improvement and improved visibility of the toilets themselves at the back of the park.
- Ravensthorpe Entertainment Centre. Review stair design due to steep access and review lift operation.
- Dump Point Sign. Improve visibility at Dunn Street.
- Seat at the front of the Senior Citizens building. Suggest that the existing footpath continues to seat.

The identification of these barriers have informed the development of strategies in the DAIP 2019 - 2024. All of the barriers raised through consultation have been reviewed by operations staff and have been prioritised in order of importance, which assists setting timeframes for the completion of strategies to overcome these access barriers.

6.5 Responsibility for implementing the DAIP

It is a requirement of the Disability Services Act that the public authorities take all practical measures to ensure the DAIP is implemented by its officers, employees, agents and contractors. Implementation of the plan is the responsibility of all areas of the Council. Some tasks in the implementation plan will apply to all areas of Council while others will apply to a specific area. The implementation plan sets out who is responsible for each action. The Shire's Executive will guide the overall implementation of the Plan such as that of the DAIP planning and review.

6.6 Communicating the DAIP to the community and people with disability

Once the DAIP has been formally endorsed by Council an advertisement will be placed through the local newspaper, notice boards, internet and direct communications, advising the community that copies of the finalised plan is available on the Shire's website and in alternative formats upon request.

6.7 Review and evaluation mechanisms

The Disability Services Act 1993 sets out the minimum review requirements for public authorities in relation to Disability Access and Inclusion Plans. The Shire's DAIP will be reviewed at least every 5 years, in accordance with the Act. The DAIP Implementation Plan may be amended on a more regular basis to reflect progress in any access and inclusion issues which may arise. Whenever the DAIP is amended, consultation processes will be followed and a copy of the amended plan will be lodged with the Department of Communities.

Ongoing review and monitoring:

- The Executive Group will meet regularly thereafter to review progress on the implementation of the strategies identified in the Disability Access and Inclusion Plan 'Implementation Plan 2019 – 2024'
- Through the Shire's record system, all community complaints and matters that relate to DAIP will be forwarded to the Executive Group for reviewing.
- The Executive Group will analyse progress in implementing the DAIP and provide a report on progress and recommended changes to the implementation plan annually;
- The review of the Shires DAIP will be submitted to the Department of Communities annually and the report will outline what has been achieved under the Shires Disability Access and Inclusion Plan 2019 – 2024.

Evaluation:

- An evaluation will occur as part of the five-yearly review of the DAIP;
- The community, staff and Elected Members will be consulted as per the endorsed consultation strategies, as part of any evaluation;
- Information on outcomes of the DAIP will be incorporated into the Shire's Annual Report; and
- Amendments to the DAIP will be promoted using accepted consultation processes.

6.8 Reporting on the DAIP

The Disability Services Act sets out the minimum reporting requirements for public authorities in relation to Disability Access and Inclusion Plans. Council will report on the implementation of its Disability Access and Inclusion Plan through its annual report and on the prescribed format to the Department of Communities by the 31st of July each year, outlining:

- Progress towards the desired outcomes of the DAIP 2019 – 2024;
- Progress of agents and contractors towards meeting the desired outcomes and strategies: and
- The strategies used to inform agents and contractors of the DAIP.

7.0 STRATEGIES TO IMPROVE ACCESS AND INCLUSION

The Department of Communities of Western Australia has identified seven key access and inclusion outcome areas that provide a framework for DAIPs. The Shire structured its previous DAIP around these outcomes. The 2019-2024 DAIP also encompasses these outcome areas; however the Shire has also added one voluntary outcome area which have been identified to meet local needs. The overarching strategies tabled below have been developed to address each of these outcomes, from feedback and analysis gained in the consultation and review process.

It is acknowledged that they are subject to being incorporated in the Councils financial year budgets; however the DAIP is intended to provide a responsive and coordinated approach to planning, funding and implementing strategies. It also aims to proactively communicate what the Shire is accomplishing and what it intends to accomplish in the future. It is important to note that the DAIP provides broad outcome areas and strategies. Specific tasks to achieve these strategies, along with timelines so that they are measurable are detailed in the accompanying DAIP Implementation Plan 2019 - 2024.

STRATEGIES TO IMPROVE ACCESS AND INCLUSION

| Outcome 1: People with disability have the same opportunities as other people to access the services of, and any events organised by, the Shire of Ravensthorpe. | |
|---|----------------|
| Strategy | Priority Order |
| Ensure that people with disability are consulted on their needs for services and the accessibility of current services. | 1 |
| Monitor the Shires Access policy and service provision to ensure equitable access to services by people with disability throughout the various functions of Council. | 2 |
| Endeavour to ensure that events, whether organised or funded, are accessible to people with disability. | 3 |
| Ensure that staff, agents and contractors are aware of the relevant requirements of the Disability Services Act | 4 |
| Develop the links between the DAIP and other Shire plans and strategies. | 5 |
| Continue to improve the accessibility of sport and leisure services and programs within the Shire. | 6 |

| Outcome 2: People with disability have the same opportunities as other people to access the buildings and other facilities of the Shire of Ravensthorpe. | |
|---|----------------|
| Strategy | Priority Order |
| Ensure that all Shire buildings and facilities are accessible to people with disability. | 1 |
| Work to improve signage and circulation throughout buildings, facilities and outdoor environments. | 2 |
| Ensure that all new or redevelopment works provide access to people with disability, where practicable. | 3 |
| Ensure that ACROD parking meets the needs of people with disability in terms of quantity and location. | 4 |
| Ensure that recreation areas and public toilets meet the associated accessibility standards, where feasible. | 5 |
| Ensure the Council staff, agents and contractors are aware of relevant statutory requirements. | 6 |
| Improve access to beaches and the sea for people with disability and people using wheelchairs. | 7 |
| Increase the number of accessible playgrounds. | 8 |

| Outcome 3: People with disability receive information from the Shire of Ravensthorpe in a format that will enable them to access the information as readily as other people are able to. | |
|---|-----------------------|
| Strategy | Priority Order |
| Improve staff awareness of accessible information needs and how to obtain information in other formats. | 1 |
| Improve community awareness that Council information can be made available in alternative formats, upon request. | 2 |
| Improve links and communication networks with relevant service providers to improve information and access to individuals with disabilities, their carers, and families and the wider community. | 3 |
| Ensure that the Shires website meets contemporary good practice. | 4 |
| Continue to provide information and documentation regarding services, facilities and customer feedback in an appropriate format using clear and concise language. | 5 |

| Outcome 4: People with disability receive the same level and quality of service from the staff of the Shire of Ravensthorpe, as other people receive from the staff of the Shire. | |
|--|-----------------------|
| Strategy | Priority Order |
| Improve staff awareness of disability and access issues and improve skills to provide good service to people with disability | 1 |
| Identify and utilise existing staff skills and competencies to enhance customer services to people with disability. | 2 |
| Ensure that all employees, existing and new, and Elected Members are aware of disability and access issues and have the skills to provide appropriate services. | 3 |
| Improve community awareness about disability and access issues | 4 |

| Outcome 5: People with disability have the same opportunities as other people to make complaints to the Shire of Ravensthorpe. | |
|---|-----------------------|
| Strategy | Priority Order |
| Ensure that grievance mechanisms are accessible for people with disability and are acted upon. | 1 |
| Improve staff knowledge so they can facilitate receipt of complaints from people with a disability | 2 |
| Ensure that staff are aware of reporting requirements to Executive for review and evaluation against the DAIP | 3 |

| Outcome 6: People with disability have the same opportunities as other people to participate in any public consultation by the Shire of Ravensthorpe. | |
|--|-----------------------|
| Strategy | Priority Order |
| Ensure that people with disability are actively consulted about the DAIP and any other significant planning processes. | 1 |
| Ensure that people with disability are aware of and can access the established consultative process of Council. | 2 |
| Improve community awareness about the consultation process in place. | 3 |
| Continue to seek a broad range of views on disability and access issues from the local community. | 4 |

| Outcome 7: People with disability have the same opportunities as other people to obtain and maintain employment with the Shire of Ravensthorpe. | |
|--|-----------------------|
| Strategy | Priority Order |
| Improve public awareness on the Shire's Equal Employment Opportunity Policy. | 1 |

| Improve community awareness on the Shire's Disability Access and Inclusion Plan and its achievements | 3 |

"Growing our Community"

A horizontal collage of four images: a yellow tractor in a field, a modern building with a white roof, two yellow flowers, and a wooden pier extending into a body of water under a bright sky.

Shire of Ravensthorpe
**Disability Access and Inclusion
Implementation Plan**
2019 - 2024

Introduction

The Shire of Ravensthorpe's Disability Access and Inclusion *Implementation Plan 2019 – 2024*, itemises what the Shire will do to improve access to its services, information and facilities for people with disability.

The Implementation Plan overleaf is presented using a table to outline:

- Individual tasks being undertaken;
- A priority order (timeline) for completion of the individual tasks; and
- Officer or Department of the Shire with responsibility for completing the individual tasks; and the broad strategy that the individual tasks are supporting.

As outlined in the Shire's DAIP and noted in appendix B from 2013 - 2018, many of the broad strategies may not be completed; however individual tasks to support the achievement of those strategies may well be undertaken in part or whole through the Implementation Plan. Strategies and tasks not achieved will be supported by tasks outlined in annually reviewed Implementation Plans.

| Outcome 1: People with disability have the same opportunities as other people to access the services of, and any events organised by, the Shire of Ravensthorpe. | | | |
|---|---|-------------------------------|------------------------------|
| Strategy | Task | Priority (Est. Period) | Responsibility |
| Monitor the Shires Access policy and service provision to ensure equitable access to services by people with disability throughout the various functions of Council. | <ul style="list-style-type: none"> - Conduct systematic reviews of the accessibility of services. - Rectify identified barriers and provide feedback to consumers. | Ongoing | DTS Shire Administration |
