**EXPRESSION OF INTEREST (EOI)**  
**ROAD CONSTRUCTION SERVICES**  
**EOI 01-2020-21**

The Shire of Ravensthorpe is seeking expressions of interest for prospective contractors for the delivery of an infrastructure project. This project is the Floater Road realignment and intersection (Brookton Highway) upgrade.

The Shire is seeking submissions from suitably qualified and Main Roads WA registered civil contractors, experienced in road construction to undertake the works to deliver the Floater Road realignment and intersection (Brookton Highway). The aim is to pre-register suitable contractors as part of a select tender process.

The works consists of two primary areas:

1. Floater Road realignment, with creek crossing culvert works, embankment construction, secondary road intersection works and mine site entrances; and
2. Intersection with Brookton Highway.

The intersection is to be constructed to Main Roads WA standards with a right turn pocket including a passing lane. All roadworks are to be sealed including secondary road intersections.

Following the tender, the successful contractor will be engaged under Australian Standard 4000 - 1997 General Conditions of Contract.

If you believe you have the suitable qualifications, expertise, and experience to deliver the Floater Road realignment and intersection (Brookton Highway), please email [tenders@ravensthorpe.wa.gov.au](mailto:tenders@ravensthorpe.wa.gov.au) and the EOI Documentation will be forwarded to you. The documentation will need to be returned to the Shire of Ravensthorpe by 10.00 am (WST) Monday, 26 October 2020.

Please take the time to carefully prepare your EOI. If you have queries, please contact the Director Technical Services Graham Steel, on (08) 9839 0000 or 0839 818 713, or by emailing [tenders@ravensthorpe.wa.gov.au](mailto:tenders@ravensthorpe.wa.gov.au).
