Control of Advertising Structures and Signs

1. PRELIMINARY

1.1 Authority to prepare and adopt a Local Planning Policy

Clause 2.2 of Shire of Ravensthorpe Town Planning Scheme No.5 (the Scheme) allows Council to prepare a Local Planning Policy in respect of any matter related to the planning and development of the Shire.

This policy will be made effective once Council has completed the process stipulated in clause 2.4 of the Scheme.

1.2 Relationship of this Policy to the Scheme

If a provision of this Policy is inconsistent with the Scheme, the Scheme prevails.

This Local Planning Policy is not part of the Scheme and does not bind Council in respect of any application for planning approval. However, Council shall have due regard to the provisions of the Policy and the objectives which the Policy is designed to achieve before making its determination.

2. APPLICATION OF THE POLICY

2.1 Purpose

The purpose of this Local Planning Policy is to guide the design, materials and siting of advertising structures and signs in the Shire of Ravensthorpe and to provide a clear direction in respect to all sign types.

2.2 Application

This Policy is applicable to the town planning scheme area which covers the entire local government district of the Shire of Ravensthorpe.

3. POLICY OBJECTIVES

The primary objectives of this Policy are to:

- Preserve the heritage and landscape values and qualities of the Shire of Ravensthorpe;
- Provide relevant information at appropriate locations to guide visitors to businesses and properties;
- Coordinate the style of signage through the use of components and features to achieve a strong distinct identity;
- Establish a standard of type-approved signs to clearly identify businesses;

- Set down requirements for direction signs and commercial signs;
- Reduce visual clutter, driver confusion, landscape detracting and traffic hazards caused by poor and indiscriminate signage;
- Ensure consistent policy and documentation throughout the Shire;
- Clearly and simply set out the requirements of the Shire of Ravensthorpe for applicants making an application for outdoor advertising;
- Decrease the time and potential waste of resources involved in negotiations between applicants and Council; and
- To decrease bureaucratic procedures, restrictions and constraints.

4. APPROVAL REQUIREMENTS

4.1 Delegated Planning Approval

The Scheme currently requires all advertising signage not exempted by Schedule 3 (Exempted Advertisements) to obtain Planning Approval. Where signs are proposed that meets the requirements of this Policy, it will be granted Planning Approval by Council's Chief Executive Officer under Delegated Authority from Council. An Application for Planning Approval is required to be lodged in accordance with Council requirements and scheduled fees.

4.2 Council Planning Approval required for all other proposals

Where advertising signage is proposed that does not meet one or more requirements of this Policy, the application will require the approval of full Council. An Application for Planning Approval is required to be lodged in accordance with Council requirements and scheduled fees. A written justification of the variation to the Policy sought is required to be lodged for consideration together with the Application.

When considering proposals for new advertising signage, Council will have regard to:

- whether a new sign is compatible with any existing signs on the site;
- whether a new sign complements or detracts from the dominant character of the surrounding landscape;
- whether a new sign complements or detracts from the architectural style and character of the building, site or area;
- whether a new sign compromises surrounding land uses due to its size, design, location or the use of illumination or devices such as flashing or moving elements;
- whether a new sign may be hazardous to vehicular or pedestrian traffic;
- whether a new sign on or attached to a heritage building is discreet and complements the building and area, and
- whether rationalisation or reduction in the number of existing signs is appropriate and achievable.

5. SIGNS - ZONING CHART

5.1 The Zoning Chart (below) has been developed to provide a simple check to assist persons in applying for signage approval. It shows the types of signs that are allowed in the different zones. For more detailed explanation of the sign types, the Policy sections relative to the specific sign type need to be read.

5.2 Signs - Zoning Chart

SIGN TYPE	ZONES

DETERMINED ALONGSIDE SCHEDULE 2 OF TPS									
LEGEND									
X	Not Permitted								
P	Permitted, application needed								
PE	Permitted, Exempt from application								
S	Permitted, total site signage plan required								
NA	Not Applicable								

Note: Certain particular types of signs are not permitted (X) in any zones. The Policy details every type of advertising sign so as to avoid confusion which would occur if certain types were not described. Council presently considers those listed as not permitted are not acceptable forms of signage for that zone.

6. STANDARDS FOR ALL SIGNS

6.1 The following standards apply to all advertising signs and devices-

6.1.1 All advertisement signs and devices shall:

- not pose a threat to public safety or health; and
- not extend beyond any boundary of a lot except with the approval of Council.

6.1.2 If illuminated, the advertising sign or device shall:

- not cause a nuisance, by way of light spillage, to abutting sites or roadways;
- not comprise flashing, running or intermittent lights;
- not interfere with or be likely to be confused with traffic control signals or create a traffic hazard;
- have any boxing or casing in which it is enclosed constructed of incombustible material;
- where comprising glass (other than fluorescent tubing) have the glass so protected as to prevent its falling into a public place in the event of breakage;
- have its electrical installation constructed and maintained to the satisfaction of the appropriate electrical supply authority and in accordance with the relevant Australian Standard.

6.2 Council may vary a standard or provision subject to conditions it thinks fit. However, all applications for variations must include justification for the variation and in most cases that will involve the submission of a Total Site Signage Plan.

6.3 The surface area of a sign is calculated in square metres - that is, its measured height x breadth.

When assessing odd or unusual shaped signs (for example, spheres, columns, animal shapes, etc.) the Council will define the surface area of the sign as its area in silhouette or profile when viewed from any one perspective. That is, the sign's maximum assessable surface area will equate to its maximum silhouette or profile.

6.4 Every sign shall be securely fixed to the structure by which it is supported to the satisfaction of Council and shall be maintained in a safe condition.

- 6.5 All signs shall be designed, constructed, finished, installed and maintained to a standard compatible with their surroundings including buildings, landscaping and other signs.
- 6.6 Signs attached to buildings shall reflect the architectural features of the building in placement, style and proportions.
- 6.7 A person shall not erect a sign so as to obstruct access to or from a door, fire escape or window, other than a window designed for the display of goods.

7. TOTAL SITE SIGNAGE PLAN

- 7.1 A Total Site Signage Plan (TSSP) means an overall plan of the whole of the subject site showing the location and size of all advertisement signs proposed for the site, as well as the outline of any buildings, car parking areas, vehicular access points to the site, etc. Any existing signs must also be included on the plan and clearly delineated.
- 7.2 A request by an applicant to vary a standard with this Policy may require a TSSP to be developed and submitted by the applicant as part of the request for the variation.
- 7.3 Council requires a TSSP to be drawn up by an applicant to enable it to assess any request for the variation of standards in the context of the total site. While a requested variation may appear to an applicant to be of a minor nature, Council has a responsibility to the wider community and must assess all aspects of the proposed sign's impact in terms of all the issues set down in this Policy.
- 7.4 A TSSP is only required as part of an application when some variation from the standards is requested or a development is proposed that has potential for many signs.
- 7.5 All subsequent applications for an advertisement sign on the subject lot must be in accordance with the approved TSSP. If not a new TSSP may be required to be approved by the Council.

A "Simple Total Site Signage Plan" Example

A simple TSSP is suitable for the following applications only:

Residential Zone Wall Signs, On Ground Signs, Window Signs and Product Display Signs

1. A clear illustration of where the sign/s will be placed on the site or building. This could be:
 - a drawing of the sign done to the correct scale and pasted to a photograph;
 - a sketch on your builder's plans and/or elevations or;
 - a perspective drawing.

The illustration must also show the relation of the sign to neighbouring properties, so that Council can check it will not have a negative impact on your neighbours.

2. An illustration or photograph of the sign/s with dimensions marked. (The actual content of the sign need not be shown.)

3. Additional notes to support your application and outline the reasons why you may wish to vary from the standards.

4. A Site Plan showing clearly where each sign is to be located in relation to the building, site boundaries and neighbouring properties.

A "Complex Total Site Signage Plan" Example

A complex TSSP is to be lodged with the following signage applications:

Above Roof
Part of Roof
Hoarding and
Tethered Signs
Wall, Projecting and Window Signs in;
 Town Centre and Residential Zones
Pylons Signs in;
 Town Centre, Light & Service Industry and Industry Zones
Panel Signs in;
 Town Centre, Light & Service Industry and Industry Zones

1. A Site Plan showing clearly where each sign is to be located in relation to the building, site boundaries and neighbouring properties.

The plan must show:

- A scale and North point
- Lot boundaries
- Street and Road names
- Existing signs to be removed or retained.

2. A perspective drawing or photomontage showing;

- Neighbouring buildings or sites
- Lot boundaries
- Existing signs to be removed or retained.

3. A sheet illustrating each sign to be installed and clearly showing;

- Dimensions
- Surface areas
- Heights above ground

4. Additional notes to support an application.

8. BUSINESS DIRECTION SIGNS

- 8.1 This form of sign means a sign erected in a street or public place to indicate the direction to another place in the Shire but does not include any such sign erected or affixed by Council or the Commissioner of Main Roads WA or a road directing sign erected or affixed by a duly incorporated association or union of motorists such as the RAC authorised in that regard by the Minister for the time being administering the *Road Traffic Act 1974*.
- 8.2 Council will allow erection of a direction sign which indicates the nature of the business or activity that may be located by following the direction indicated by the sign. The top of such signs shall be a maximum of 200mm wide, length of 1.5metres, with 160mm letters, white on blue background for a business or white on brown for a tourist attraction. Individual business name tags/logos may also be permitted and shall be incorporated with the sign. Such signs shall not be located more than 3.0m above the ground.
- 8.3 With the exception of the delegated area, Main Roads WA approval is required prior to the erection of signs on South Coast Highway, Morgans Street and Hopetoun-Ravensthorpe Road.
- 8.4 Where more than one such direction sign is required for a particular street junction, then they shall be incorporated into a stack sign structure which will be funded by the various businesses and erected to meet the following standards:
- each individual sign shall incorporate the business name/tag/logo/hours of opening and the direction to proceed. All letters and numbers shall be white on a blue background for businesses or white or brown for tourist attractions. The business logo may be in the business colours.
 - each individual sign shall be a maximum width of 200mm and length of 1.5 metres.
 - to be located to the satisfaction of the Council to ensure traffic safety.
 - the overall structure shall be in the following form:

- 8.5 In the Town Centre Zone of both Ravensthorpe and Hopetoun, this stack sign concept may not be a practical proposition from a traffic/pedestrian safety perspective. Council's Engineering Department will assess each proposed siting of appropriate sign structures. In general the above principle at 8.4 will be used but the poles will be the narrower steel form.
- 8.6 Where the stack sign is proposed in the rural districts and Council feels it appropriate from a traffic safety perspective, a warning direction sign shall be located in advance of the street junction. Such a warning sign shall again be a composite form as follows:

Council will have the sign prepared and erected and the cost of such sign shall be borne by the various businesses involved. Subsequent additions of symbols to the sign for new businesses will be at the cost of the new business for the necessary overlay panels.

- 8.7 A Business Direction sign is not permitted for home occupation uses.

9. RURAL BUSINESS SIGNS ON THE ACTUAL PROPERTY

- 9.1 A rural business sign means a sign erected on the property where the actual business is being carried out.
- 9.2 A rural business sign shall –
- not indicate or display any matter other than for the purpose of advertising the sale of produce grown or made available on the land on which the sign is erected;
 - be erected within the boundaries on the land on which the produce offered for sale was grown or made or alternatively on the adjoining road verge if in the opinion

of Council, existing vegetation would otherwise obscure the sign;

- not exceed 2.0 square metres in area;
- not to exceed an overall height of more than 3 metres from the natural ground level;
- be secured on a frame mounted to timber or steel poles or similar, anchored securely to the ground;
- be neatly prepared and of a professional standard; and
- be kept clean and free from unsightly matter and in good condition and presentation.

9.3 Only one such sign will be permitted per lot, however in special circumstances such as the size of the lot or traffic safety, Council may allow two such signs to be erected.

9.4 Where such a sign is to be erected on a lot where more than one activity is carried out, Council will require advertising to be incorporated into one sign complying with the following –

- initial approval is to be given to the sign framework together with one or more sign infill;
- an application is to be submitted and approval given for each subsequent infill;
- all infill are to be of an equal size; and
- not exceed 2.0 square metres in area and 3 metres in height from the natural ground level.

9.5 Colours should not conflict with traffic management signs.

9.6 Rural Business signs are permissible in the General Agriculture Zone.

10. REAL ESTATE DIRECTIONAL SIGNS

10.1 Real estate directional signs are those which direct persons towards a particular property that is being offered for sale. They are not located on the property but are located in a prominent position in most instances on a major arterial road with some form of indication of how to get to the property or how far away it is located. For the purposes of this policy, major arterial roads include South Coast Highway, Morgans Street, Hopetoun-Ravensthorpe Road, Jerdacuttup Road, Springdale Road and Hamersley Drive.

10.2 Such directional signs will be allowed if the property for sale is in a rural area and is positioned off a major arterial road. Such signs are to be removed as soon as possible after settlement date of the property transaction or as soon as practicable up to a maximum period of 14 days after settlement.

Council's approved form of directional sign is shown below and those signs not adhering to this format will not be

allowed:

- NOTE: 1. The words on these standard signs may consist of "LAND SALE", "AUCTION SALE" or "FARM SALE".
2. The sign must be securely fixed to the timber or steel poles.

11. REAL ESTATE DEVELOPMENT SIGNS

- 11.1 Real estate development signs are those erected on new residential, industrial, commercial, tourist and rural living developments or subdivisions. They are generally large and contain information such as the name of the estate, plan of the subdivision, details of facilities/number of lots/prices, leasing details, auction details etc. and the real estate agency contact details.
- 11.2 Each subdivision/development shall be permitted one such development sign except that when there are two prominent road frontages, when a second such sign shall be permitted.
- 11.3 Development signs are to be a maximum of 8 square metres in area and shall be securely mounted on timber or steel poles. The sign must be located within the land area being offered for sale.
- 11.4 Development signs are to be removed as soon as possible up to a maximum period of 14 days after settlement of the sale or the leasing of 90% of the lots.
- 11.5 Should a sold block come back on the market with another agent, during the marketing of a subdivision or development, then that agent may erect their standard "For Sale" sign.

12. REAL ESTATE "FOR SALE" SIGNS

- 12.1 "For Sale" signs are those erected on various kinds of individual properties being offered for sale and include the selling real estate agency contact details and the words "For Sale". They are to be a maximum size of 2000mm x 1000mm (2m²) and erected on steel poles.
- 12.2 "For Sale" signs in the urban areas shall be limited to two such signs per property. The two signs can be located in a V shape for ease of identification and for safety reasons. Such signs do not have to be placed parallel to lot boundaries.
- 12.3 In the case of an open listing, a single "For Sale" sign shall be erected with the agent's names and contact numbers in a neat row from top to bottom. Such signs can be erected at any angle and can be painted on both sides. The "For Sale" part of the sign is to be 800mm x 250mm with a white background and red lettering. The agent's name plates are to be 800mm x 150mm and can incorporate the agent's logo, colour scheme and phone number. When the property is sold, the "sold" sticker is to go on the selling agent's name plate. Real estate agencies will provide the generic signs with the agent getting the first open listing for a property being responsible for erecting and removing the sign and able to place their name plate first.
- 12.4 In the case of a joint exclusive between two agents, then both agents can erect one normal "For Sale" sign each. If more than two agencies are involved then the open listing format above shall be used.
- 12.5 The "For Sale" signs are to be removed as soon as possible after settlement of the property transaction or as soon as practicable up to maximum period of 14 days after settlement.
- 12.6 The "For Sale" sign described above shall also be interpreted to include those advertising properties or premises to "Lease" or to "Let".

13. ON BUILDING SIGNS

13.1 Above Roof Sign

- 13.1.1 This is an advertising sign, which protrudes above the normal roof line with little or no relation to the architectural design of the building. It does not however include a "Part of Roof" sign.

- 13.1.2 Notwithstanding the above an Above Roof sign is not permitted in any zone.

13.2 Part of Roof Sign

- 13.2.1 This is an advertising sign which is fixed to a fascia, or to the roof itself, or which forms part of a projection above the eaves, or ceiling of the building.

- 13.2.2 A Part of Roof sign shall be fixed parallel to the fascia or portion of the building (including the roof) to which it is attached.
- 13.2.3 A Part of Roof sign shall have a maximum area of 3m². It shall not project more than 300mm from the portion of the building to which it is attached and shall not be within 500mm of either end of the fascia, roof or parapet of the building to which it is attached.
- 13.2.4 Part of Roof signs are only permitted in the Town Centre, Tourist, Light & Service Industry and Industrial Zones and require an application to Council accompanied by a Total Site Signage Plan.

13.3 Wall Sign

- 13.3.1 This is an advertising sign which is fixed to the external part of a wall of the building but does not project more than 300mm out from the wall, and no part of which is above the lowest point of the eaves or ceiling of the building.

- 13.3.2 Wall Signs shall be limited to a maximum number of two such signs on any one wall for each tenancy within a building other than a building within the Residential Zone.

13.3.3 Wall Signs shall not exceed 10m² in area in aggregate on any one wall or 25% of that wall area unless a Total Site Signage Plan for the whole site has been submitted and approved by Council.

13.3.4 A Wall Sign, if placed directly over door openings, shall not project below the top of that door.

13.3.5 A Wall Sign, if located within the Residential Zone and attached to a building used predominantly for a residential use, shall-

- not exceed 0.2m² in area; and
- not exceed one sign per lot.

13.3.6 A Wall Sign, if located within the Residential Zone and attached to a building used predominantly for a commercial use, shall-

- not exceed 0.2m² in area; and
- not exceed one sign per lot.

13.3.7 Wall Signs are permitted in the Town Centre, Light & Service Industry, Industrial and Tourist Zones. In the Residential, and General Agriculture Zones, Wall Signs are only permitted once an application incorporating a Total Site Signage Plan is submitted and approved.

13.3.8 Wall Signs are permitted for places of public worship, meeting and assembly halls provided only one sign is placed on each building and such signs shall not exceed 0.2m².

13.3.9 Wall Signs to display the name, number and address of a building are permitted provided only one sign is placed on each building and such signs shall not exceed 0.2m².

13.3.10 A Wall Sign is not permitted for B&B and Holiday Accommodation.

13.4 Projecting Signs

13.4.1 This is an advertising sign which is attached to a projection (including a verandah) which projects more than 300mm from a wall of the building below the eaves or ceiling height.

13.4.2 Projecting Signs shall be limited to one such sign per tenancy on a lot other than any projecting signs that are attached to the fascia of the verandah or the like. All such signs shall have a minimum clearance of 2.4m from the ground.

13.4.3 Projecting Signs on the fascia of a verandah shall not exceed 600mm in a vertical dimension and shall not project beyond the outer frame or surrounds of the fascia.

13.4.4 Projecting Signs on the underside of a verandah shall not:

- exceed 2.4m in length;
- exceed 600mm in a vertical dimension;
- weigh more than 30kg;
- be within 3.0m of another such sign attached to the underside of the same verandah unless deemed acceptable to Council; or
- project beyond the outer frame or surround of the verandah.

13.4.5 Projecting Signs on the underside of a verandah shall be at right angles to the front street boundary except on a corner lot where the signs may be placed so as to be visible from both streets.

13.4.6 Projecting Signs above a verandah shall not:

- exceed 2.0m in length;
- exceed 600mm in a vertical dimension;
- be within 3.0m of another such sign attached above the same verandah; or
- project beyond the outer frame or surround of the verandah.

13.4.7 Projecting Signs attached directly to the building shall not:

- project more than 1.0m from the outer wall and not exceed 1.5m² in area;
- be placed within 2.0m of either end of the wall to which they are attached (in exceptional circumstances such as a narrow shop front Council may allow a reduction); or
- project above the top of the wall to which they are attached.

13.4.8 Projecting Signs include blinds or screens dropped vertically down from the fascia of a verandah, awning or canopy to provide protection from the sun, rain or wind where these blinds or screens contain forms of advertising. These projecting signs will only be permitted in the Central Business District. These blinds or screens shall be fixed rigidly into position and in special circumstances Council may approve such devices at the end of a verandah.

13.4.9 Any blind or screen shall have a minimum clearance of 2.1m from the ground and Council may average this headroom requirement where it is considered the device will not create a hazard for pedestrians or conflict with the built form.

13.4.10 The blinds or screens are to be sympathetic to the surrounding built form in regards to design, colour and material. Preferred background colours include natural

earth and vegetation colours. All blinds or screens must be kept in good repair and condition to the satisfaction of Council. Council will not permit any device to be hung below or otherwise attached to any blind. This excludes connection of the blind to a building, verandah, awning or canopy approved by Council, or the attachment of an advertising device in accordance with this policy on the face of the blind or screen.

- 13.4.11 Advertising on blinds or screens shall be limited to the name of the business or the form of activity taking place within the building (ie Chemist. Bakery etc). Signs advertising particular brand names will not be permitted. Advertisements must be either painted directly onto the blind, or alternatively securely fixed to the blind and maintained in a safe condition to the satisfaction of Council. Writing shall be limited to a single line, except where smaller print above/or below the main wording is considered incidental to the main advertisement. Maximum height of writing is to be 300mm.

Council will only permit the illumination of blinds in special circumstances. Justifications must be presented with regard to amenity and impact on adjoining properties and passing traffic (on Morgans Street, this may require the approval of Main Roads WA).

- 13.4.12 Another technique for Projecting Signs is for advertising devices to be attached to verandah posts, power poles or other features of street furniture located within road reserves. These kinds of advertising devices are not permitted. In certain cases Council may permit limited advertising in the form of lettering being painted directly onto the verandah post but it will not allow signs to be adhered to the posts in any form. The attachment of such devices to power poles and other features of street furniture such as seats or parking restriction poles is not permitted.

- 13.4.13 In the case of all Projecting Signs over public land, the applicant must provide written confirmation at the time of application that they have suitable comprehensive public liability insurance to indemnify Council against any claim should an accident involving the approved Projecting sign occur.
- 13.4.14 Projecting Signs are permitted in the Town Centre, Light & Service Industry, Industry and Tourist Zones. In the General Agriculture Zone, Projecting Signs are only permitted once an application incorporating a Total Site Signage Plan is submitted and approved.
- 13.4.15 Notwithstanding the above, a Projecting Sign is not permitted above a verandah (13.4.6). In the absence of a verandah fascia less than 600mm high, Council may consider a projecting sign at the gutter line but not exceeding 600mm high.

13.5 Window Signs

- 13.5.1 This is an advertising sign which is fixed either to the interior or exterior of the glazed area of a window and any part of which is visible from outside the building. Window signs internal to the building and which cannot be seen from outside do not require Council approval. See also 14.9.

- 13.5.2 Window Signs shall not cover more than 50% of the glazed area of any one window or exceed 10.0m² in area in aggregate per tenancy on a lot.
- 13.5.3 Window Signs are permissible in the Town Centre, Light & Service Industry, Industry and Tourist Zones.

14. OFF BUILDING SIGNS

14.1 Pylon Signs

- 14.1.1 This is an advertising sign, which is fixed to a structure which has one or more supports. The overall height (including supports) is greater than the sign's width (horizontal

dimension), and portion of the sign is greater than 1.2m above natural ground level.

14.1.2 Pylon signs shall have a minimum clearance of 2.4m from ground level, shall not be more than 4.0m above ground level, shall not exceed 2.0m² measured either vertically or horizontally across the face of the sign. Pylon signs shall not be greater than 2.0m² in area and shall be limited to one sign per street frontage on any one lot.

14.1.3 Pylon signs are only permitted in the Town Centre, Light & Service Industry and Industrial Zones once an application incorporating a Total Site Signage Plan is submitted and approved.

14.2 On Ground Signs

14.2.1 This is an advertising sign which is not attached to a building and no portion of this type of sign can be higher than 1.2m above ground level. These include those commonly known as sandwich board signs.

14.2.2 On Ground Signs which in the opinion of Council are portable shall:

- be located wholly within the boundaries of the lot;
- be displayed only during normal business hours of the business to which the sign relates;
- be limited to a maximum of one sign per tenancy on a lot;
- have no moving parts once the sign is in place;
- where relevant display the word "open"; and
- have a maximum vertical or horizontal dimension of 1.0m and have an area of not more than 0.6m².

14.2.3 On Ground Signs which in the opinion of Council are not portable shall:

- be located wholly within the boundaries of the lot;
- have a maximum vertical dimension of 1.2m and a maximum area of 1.0m²;
- advertise only products or services available from the lot; and

- be limited to a maximum of one sign per street frontage on any one lot.

14.2.4 On Ground Signs are permissible in the Town Centre, Light & Service Industry, Industry and Tourist Zones.

14.2.5 On Ground Signs are not permitted for B&B and Holiday Accommodation uses.

14.3 Panel Signs

14.3.1 This is advertising sign, which is fixed to a panel and is greater than 1.2m above ground level. It does not include a pylon sign, a hoarding sign or a real estate development sign.

14.3.2 A Panel sign shall have a maximum vertical dimension of 1.5m and a maximum area of 4.0m².

14.3.3 A Panel sign shall not:

- in aggregate have a combined area of 16m² per lot;
- not be less than 1.0m or greater than 2.5m from ground level;
- not be erected in the area between building and the front boundary of a lot except with the approval of Council; and
- not be with 10m of another panel sign on the same lot.

14.4 Hoarding Sign

14.4.1 This is an advertising sign which is fixed to a structure and which has one or more supports. The overall height (including supports) is less than the sign's width (horizontal dimension). Part of the sign must be greater than 1.2m above ground level.

14.4.2 A Hoarding Sign shall have a maximum area of 10m² and be limited to a maximum of one such sign per street frontage of the lot.

14.4.3 A Hoarding Sign shall not:

- be less than 1.2m or greater than 2.5m from ground level; and
- be erected in the area between any building and the front boundary of a lot.

14.4.4 Notwithstanding the above a Hoarding Sign is not permitted in any zone.

14.5 Tethered Signs

14.5.1 This is an advertising sign, which is suspended from or tethered (tied) to any structure or tree or pole (with or without supporting framework). The sign may be made of paper, plastic, fabric or a similar material. It includes "lighter than air" aerial devices, inflatables, bunting, banners, flags, semaphore signs and kites.

14.5.2 A Tethered Sign shall be located wholly within the boundaries of the lot and have a maximum vertical dimension of 0.75m and a maximum area of 2m².

14.5.3 A Tethered Sign shall be limited to a maximum of one sign per street frontage or any one lot.

14.5.4 A Tethered Sign shall not:

- be less than 2.5m or greater than 5.0m from ground level; and
- be within 10m of a Pylon sign.

14.5.5 A Tethered Sign which consists of balloon type objects shall not:

- exceed 5.0m in diameter or 6.0m in height; and
- be displayed for more than 14 days in aggregate in any one calendar year.

14.5.6 Notwithstanding the above a Tethered Sign is not permitted in any zone.

14.6 Product Display Sign

- 14.6.1 This is an advertising sign applied to or adhered to or placed on a vehicle (the vehicle might be a car, truck, boat, trailer, caravan, machinery or similar whether moveable or not). It can be a product or object, which is displayed for the purpose of advertising.

- 14.6.2 A Product Display Sign shall be located wholly within the boundaries of the lot placed so as to not cause any interference, whether directly or indirectly, to vehicular traffic or pedestrians, have no moving parts, limited to a maximum of one sign per street frontage on any one lot and have a maximum vertical or horizontal dimension of 2.0m.
- 14.6.3 A Product Display Sign shall not be located within road or any other public reserves.
- 14.6.4 A Product Display Sign does not include sign writing painted onto vehicles.
- 14.6.5 A Product Display Sign is permissible in the Light & Service Industry, Industry and General Agriculture Zones.

14.7 Construction Site Signs

- 14.7.1 This is an advertising sign which is displayed only for the duration of the construction of a building or development. It does not include a Real Estate Development sign. This sign can also include a tradesman's individual trades' signs or logos.

- 14.7.2 A Construction Site Sign shall be limited to one sign per street frontage and contain details of the project and the contractors undertaking the construction work.
- 11.7.3 A Construction Site Sign shall be limited to 2.0m² for housing, commercial, professional office and industrial developments.
- 11.7.4 Construction Site Signs are permitted in all zones.

14.8 Display Home Signs

14.8.1 This is advertising sign displayed for the period over which homes are on display for public inspection.

14.8.2 One Display Home Sign is permitted for each dwelling on display. The sign can have a maximum area of 2.0m².

14.8.3 Display Home Signs cannot be illuminated.

14.8.4 Display Home Signs are permitted in all Residential and Special Residential zones.

14.9 Signs for Public Information

14.9.1 Notwithstanding any other provision of this Policy, Council may allow the display of advertisements of meetings, charitable functions, art or cultural activities or other events of public interest or the display of advertisements at theatres and other places of public entertainment (other than those conducted by a person for the purpose of commercial gain unless in the interest of the community or tourists).

14.9.2 A person shall not erect or maintain a sign more than 2 weeks before the meeting, function event or activity to which it relates and the person by whom it was erected shall cause it to be removed not later than 24 hours after the conclusion of the meeting, function, event or activity.

14.9.3 Upon the expiry of an approval or the issue of an enforcement notice for this type of temporary sign the person to whom it was issued shall forthwith remove the advertisement to which it relates.

14.9.4 In respect to the activity commonly referred to as a "Garage Sale" sign(s) can be placed within road reserves directing people to the property the sale is being conducted at, but the sign(s) can only be placed on display on the day of the garage sale. The maximum size permissible for this type of sign is 0.4m². Such signs must be neatly prepared and be located in positions so as to not cause a traffic or pedestrian

hazard. Such signs must be removed immediately upon the completion of the sale on the day.

15. EXISTING SIGNS

- 15.1 Existing signs are those which were erected, placed or displayed lawfully prior to the coming into force of this Policy.
- 15.2 No provision of this Policy shall prevent the continued use of a sign for which, immediately prior to this Policy coming into operation, all licences and approvals required to authorise the erection of the sign, were duly obtained and are current.
- 15.3 However, where Council considers that a particular sign conflicts with the aims or objectives of this Policy, it may serve an enforcement notice to require the advertiser to remove or adapt the sign.

16. PROHIBITED SIGNS

16.1 The following are expressly prohibited by this Policy –

- A Flag other than an Australian National Flag, WA State Flag, and a flag or banner for a specific event, function/celebration, unless approved by Council;
- Bunting or other form of tethered sign including semaphore signs;
- Flashing, intermittent or sequential lights;
- A sign on a roof of a building or on the roof of a verandah;
- Sandwich-board signs, except on private property;
- A sign which rotates or tumbles;
- A hoarding;
- An electoral sign, except on private property;
- A sign advertising facilities, goods or services not on the actual property;
- A bill or fly-poster except on the interior face of shop windows (13.5);
- A sign nailed or otherwise affixing to a tree: and
- Any sign which in the opinion of Council is contrary to the aims and objectives of the Policy as detailed earlier in this document.

17. ENFORCEMENT

- 17.1 The Council has powers to enforce compliance with the approvals and conditions it issues for advertising signs.

- 17.2 The Council may serve an enforcement notice upon a non-complying advertiser, and the notice shall specify the following:
- the advertisement sign(s) in question;
 - full details of the action to be taken by the advertiser to comply with the notice;
 - the period (which will not be less than 28 days) within which the action specified by the Council shall be completed by the advertiser.
- 17.3 The signs addressed by this Policy and the above prohibited signs which do not have Council approval shall be removed within 28 days of the owner of the sign (the advertiser) being advised by an enforcement notice to do so by Council.
- 17.4 Any person upon whom an enforcement notice is served may within a period of 60 days from the date of the notice, appeal against the Council's action – either to the Minister of Planning or to the State Administrative Tribunal. Where any such appeal is lodged, the effect of the notice shall be suspended until the appeal is determined.
- 17.5 Any person who fails to comply with the requirements of an enforcement notice commits an offence as set out in the *Shire of Ravensthorpe Town Planning Scheme No.5* and is liable to the penalties prescribed in section 223 of the *Planning & Development Act 2005*.
- 17.6 If a person fails to comply with the requirements of the enforcement notice, representatives of the Council may enter the subject land and carry out the requirements of the notice and Council may then recover its costs as a debt from the person who failed to comply with the enforcement notice.

18. PLANNING APPROVAL

- 18.1 The types of signs detailed at 12, 13.3.5, 13.3.6, 13.3.8, 13.3.9, 13.5.1 (in part), 14.7 and 14.8 inclusive will not require an Application for Planning Approval to be lodged as they are exempted advertisements under Schedule 3 of Council's Town Planning Scheme No.5 provided they meet the Policy requirements.
- 18.2 Where considered warranted, an Application for Planning Approval shall be accompanied by a completed 'Schedule 4 – Form of Application for Planning Approval' form as contained in Town Planning Scheme No.5 accompanied by 'Appendix 1 – Control of Advertisements' form and attached to this Policy.

- 18.3 Where a sign, which requires an application for Planning Approval, conforms to the requirements listed in this Policy, a Determination on Application for Planning Approval notice will be issued. Where such a sign is proposed to depart from the requirements listed, the application will be considered in the context of the aims and objectives of this Policy.
- 18.4 In respect to Signs for Public Information (14.9), an application for Planning Application is not required. Approval of the Chief Executive Officer is required to be obtained for these types of temporary signs.
