INFORMATION FOR THE PUBLIC ATTENDING COUNCIL MEETINGS

Please Note:

The recommendations contained in this agenda are officers' recommendations only and should not be acted upon until Council has resolved to adopt those recommendations.

The resolutions of Council should be confirmed by perusing the minutes of the Council meeting at which these recommendations were considered.

Members of the public should also note that they act at their own risk if they enact any resolution prior to receiving official written notification of Councils decision.

Meeting Procedures:

1. All Council meetings are open to the public, except for matter raised by Council under "confidential items".
2. Members of the public may ask a question at an ordinary Council Meeting under "public question time".
3. Members of the public who are unfamiliar with meeting procedures are invited to seek advice at the meeting. If unsure about proceeding, just raise your hand when the presiding member announces public question time.
4. All other arrangements are in accordance with the Council's standing orders, policies and decision of the Shire of Ravensthorpe.

Council Meeting Information:

Your Council generally handles all business at Ordinary or Special Council Meetings.

From time to time Council may form a Committee to examine subjects and then report back to Council.

Generally all meetings are open to the public; however, from time to time Council will be required to deal with personal, legal and other sensitive matters under "confidential items". On those occasions Council will generally close that part of the meeting to the public. Every endeavour will be made to do this as the last item of business of the meeting.

Public Question Time. It is a requirement of the *Local Government Act 1995* to allow at least fifteen (15) minutes for public question time following the opening and announcements at the beginning of the meeting. Should there be a series of questions the period can be extended at the discretion of the presiding member.

Written notice of each question should be given to the Chief Executive Officer fifteen (15) minutes prior to the commencement of the meeting. A summary of each question and the response is included in the meeting minutes.

When a question is not able to be answered at the Council Meeting a written answer will be provided after the necessary research has been carried out. Council staff will endeavour to provide the answers prior to the next ordinary meeting of Council.

Councillors may from time to time have a financial interest in a matter before Council. Councillors must declare an interest and the extent of the interest in the matter on the Agenda. However, the Councillor can request the meeting to declare the matter trivial, insignificant or in common with a significant number of electors or ratepayers. The Councillor must leave the meeting whilst the matter is discussed and cannot vote unless those present agree as above.

Members of staff, who have delegated authority from Council to act on certain matters, may from time to time have a financial interest in a matter on the Agenda. The member of staff must declare that interest and generally the presiding member of the meeting will advise the Officer if he/she is to leave the meeting.

Agendas, including an Information Bulletin, are delivered to Councillors within the requirements of the *Local Government Act 1995*, i.e. seventy-two (72) hours prior to the advertised commencement of the meeting. Whilst late items are generally not considered there is provision on the Agenda for items of an urgent nature to be considered.

Should an elector wish to have a matter placed on the Agenda the relevant information should be forwarded to the Chief Executive Officer in time to allow the matter to be fully researched by a Shire Officer. An Agenda item, including a recommendation, will then be submitted to Council for consideration. The Agenda closes the Friday week prior to the Council Meeting (i.e. ten (10) days prior to the meeting).

The Information Bulletin produced as part of the Agenda includes items of interest and information, which does not require a decision of Council.

Agendas for Ordinary Meetings are available at the Shire of Ravensthorpe Office and on the Shire website seventy-two (72) hours prior to the meeting and the public are invited to view a copy at the Shire Office.

Agenda items submitted to Council will include a recommendation for Council consideration. Electors should not interpret and/or act on the recommendations until after they have been considered by Council. Please note the Disclaimer in the Agenda (page 2).

Public Inspection of Unconfirmed Minutes (Regulation 13).

A copy of the unconfirmed Minutes of Ordinary and Special Meetings will be available for public inspection from the Shire of Ravensthorpe Office and the Shire of Ravensthorpe website within ten (10) working days after the Meeting.

13.1 National Redress Scheme (Participation of WA Local Governments)

Previous Reference:	Nil.

Summary:

This item is for the Shire of Ravensthorpe to:

- Note the background information and the WA Government’s decision in relation to the National Redress Scheme.
- Note the key considerations and administrative arrangements for the Shire of Ravensthorpe to participate in the National Redress Scheme.
- Formally endorse the Shire of Ravensthorpe’s participation as part of the WA Government’s declaration in the National Redress Scheme.
- Grant authority for the Chief Executive Officer to execute a service agreement with the State, if a Redress application is received.

Background:

The Royal Commission into Institutional Responses to Child Sexual Abuse (Royal Commission) was established in 2013 to investigate failures of public and private institutions to protect children from sexual abuse. The Royal Commission released three reports throughout the enquiry:

- Working with Children Checks (August 2015);
- Redress and Civil Litigation (September 2015); and
- Criminal Justice (August 2017).

The Royal Commission’s Final report (15 December 2017), incorporated findings and recommendations of the three previous reports and contained a total of 409 recommendations, of which 310 are applicable to the Western Australian Government and the broader WA community.

The implications of the Royal Commission’s recommendations are twofold: the first is accountability for historical breaches in the duty of care that occurred before 1 July 2018 within any institution; the second is future-facing, ensuring better child safe approaches are implemented holistically moving forward.

The scope of this report addresses only the historical element of institutional child sexual abuse through the National Redress Scheme.

All levels of Australian society (including the WA government sector and the Shire of Ravensthorpe) will be required to consider leading practice approaches to child safeguarding separately in the future.

National Redress Scheme

The Royal Commission's *Redress and Civil Litigation (September 2015)* Report recommended the establishment of a single National Redress Scheme (the Scheme) to recognise the harm suffered by survivors of institutional child sexual abuse.

The Scheme acknowledges that children were sexually abused, recognises the suffering endured, holds institutions accountable and helps those who have been abused access counselling, psychological services, an apology and a redress payment.

The Scheme commenced on 1 July 2018, will run for 10 years and offers eligible applicants three elements of Redress:

- A direct personal response (apology) from the responsible institution, if requested;
- Funds to access counselling and psychological care; and
- A monetary payment of up to \$150,000.

All State and Territory Governments and many major non-government organisations and church groups have joined the Scheme.

The WA Parliament has passed the legislation for the Government and WA based non-government organisations to participate in the National Redress Scheme.

The Western Australian Government (the State) started participating in the Scheme from 1 January 2019.

Under the *National Redress Scheme for Institutional Child Sexual Abuse Act 2018* (Cth), local governments may be considered a State Government institution. (Section 111(1)(b).

A decision was made at the time of joining the Scheme to exclude WA local governments from the State Government's participation declaration. This was to allow consultation to occur with the sector about the Scheme, and for fuller consideration of how the WA local government sector could best participate.

Comment:

Following extensive consultation, the State Government (December 2019):

- Noted the consultations undertaken to date with the WA local government sector about the National Redress Scheme;
- Noted the options for WA local government participation in the Scheme;
- Agreed to local governments participating in the Scheme as State Government institutions, with the State Government covering payments to the survivor; and
- Agrees to the Department of Local Government, Sport and Cultural Industries (DLGSC) leading further negotiations with the WA local government sector regarding local government funding costs, other than payments to the survivor including counselling, legal and administrative costs.

The following will be covered for local governments participating in the Scheme as a State Government institution and part of the State's declaration:

- Redress monetary payment provided to the survivor;
- Costs in relation to counselling, legal and administration (including the coordination of requests for information and record keeping in accordance with the *State Records Act 2000*); and

- Trained staff to coordinate and facilitate a Direct Personal Response (DPR – Apology) to the survivor if requested (on a fee for service basis with costs to be covered by the individual local government – see below for further explanation).

State Government financial support for local government participation in the Scheme, as set out, will ensure that Redress is available to as many WA survivors of institutional child sexual abuse as possible.

Individual local governments participating in the Scheme as a State Government institution, with the State will be responsible for:

- Providing the State with the necessary (facilities and services) information to participate in the Scheme;
- Resources and costs associated with gathering their own (internal) information and providing that information (Request for Information) to the State (if they receive a Redress application); and
- Costs associated with the delivery of a DPR (apology), if requested (based on a standard service fee, plus travel and accommodation depending on the survivor's circumstance). The State's decision includes that all requested DPR's will be coordinated and facilitated by the Redress Coordination Unit – Department of Justice, on every occasion.

The WALGA State Council meeting of 4 March 2020:

1. Acknowledged the State Government's decision to include the participation of Local Governments in the National Redress Scheme as part of the State's declaration;
2. Endorsed the negotiation of a Memorandum of Understanding and Template Service Agreement with the State Government, and
3. Endorsed by Flying Minute the Memorandum of Understanding prior to execution, in order to uphold requirements to respond within legislative timeframes.

The State and WALGA will sign a Memorandum of Understanding to reflect the principles of WA local governments participating in the Scheme as State Government institutions and being part of the State's declaration.

State agencies (led by DLGSC), WALGA and Local Government Professionals WA will support all local governments to prepare to participate in the Scheme from 1 July 2020 (or earlier, subject to completing the necessary arrangements).

The State's decision allows for the WA Government's Scheme participation declaration to be amended to include local governments and this report seeks endorsement of the Shire of Ravensthorpe's participation in the Scheme.

As an independent entity and for absolute clarity, it is essential that the Shire of Ravensthorpe formally indicates via a decision of Council, the intention to be considered a State Government institution (for the purposes on the National Redress Scheme) and be included in the WA Government's amended participation declaration.

The Shire of Ravensthorpe will not be included in the State's amended declaration, unless it formally decides to be included.

The financial and administrative coverage offered by the State will only be afforded to WA local governments that join the Scheme as a State Government institution, as part of the State's amended declaration.

The option also exists for the Shire of Ravensthorpe to formally decide not to participate in the Scheme (either individually or as part of the State's declaration).

Should the Shire of Ravensthorpe formally decide (via a resolution of Council) not to participate with the State or in the Scheme altogether, considerations for the Shire of Ravensthorpe include:

- Divergence from the Commonwealth, State, WALGA and the broader local government sector's position on the Scheme (noting the Commonwealth's preparedness to name-and-shame non-participating organisations).
- Potential reputational damage at a State, sector and community level.
- Complete removal of the State's coverage of costs and administrative support, with the Shire of Ravensthorpe having full responsibility and liability for any potential claim.
- Acknowledgement that the only remaining method of redress for a victim and survivor would be through civil litigation, with no upper limit, posing a significant financial risk to the Shire of Ravensthorpe.

Considerations for the Shire of Ravensthorpe

Detailed below is a list of considerations for the Shire of Ravensthorpe to participate in the Scheme:

1. Executing a Service Agreement

All Royal Commission information is confidential, and it is not known if the Shire of Ravensthorpe will receive a Redress application. A Service Agreement will only be executed if the Shire of Ravensthorpe receives a Redress application.

Shire of Ravensthorpe needs to give authority to an appropriate position / officer to execute a service agreement with the State, if a Redress application is received. Timeframes for responding to a Request for Information are 3 weeks for priority applications and 7 weeks for non-priority applications. A priority application timeframe (3 weeks) will be outside most Council meeting cycles and therefore it is necessary to provide the authorisation to execute an agreement in advance.

2. Reporting to Council if / when an application is received

- Council will receive a confidential report, notifying when a Redress application has been received. All information in the report will be de-identified but will make Council aware that an application has been received.

•

3. Application Processing / Staffing and Confidentiality

Administratively the Shire of Ravensthorpe will determine:

- Which position(s) will be responsible for receiving applications and responding to Requests for Information;
- Support mechanisms for staff members processing Requests for Information.

The appointed person(s) will have a level of seniority in order to understand the magnitude of the undertaking and to manage the potential conflicts of interest and confidentiality requirements

4. Record Keeping

The State Records Office advised (April 2019) all relevant agencies, including Local Governments, of a 'disposal freeze' initiated under the *State Records Act 2000* (the Act) to protect past and current records that may be relevant to actual and alleged incidents of child sexual abuse. The Shire of Ravensthorpe's record keeping practices as a result, have been modified to ensure the secure protection and retention of relevant records. These records (or part thereof) may be required to be provided to the State's Redress Coordination Unit in relation to a Redress application.

The Redress Coordination Unit (Department of Justice) is the state record holder for Redress and will keep copies of all documentation and RFI responses. Local Governments will be required to keep their own records regarding a Redress application in a confidential and secure manner, and in line with all requirements in *The Act*.

5. Redress Decisions

The Shire of Ravensthorpe should note that decisions regarding Redress applicant eligibility and the responsible institution(s), are made by Independent Decision Makers, based on the information received by the applicant and any RFI responses. The State Government and the Shire of Ravensthorpe do not have any influence on the decision made and there is no right of appeal.

Consultation:

The State, through the Department of Local Government, Sport and Cultural Industries (DLGSC), consulted with the WA local government sector and other key stakeholders on the Royal Commission into Institutional Responses to Child Sexual Abuse (in 2018) and the National Redress Scheme (in 2019).

The consultation throughout 2019 has focused on the National Redress Scheme with the aim of:

- raising awareness about the Scheme;
- identifying whether WA local governments are considering participating in the Scheme;
- identifying how participation may be facilitated; and
- enabling advice to be provided to Government on the longer-term participation of WA local governments.

Between March and May 2019, DLGSC completed consultations that reached 115 out of 137 WA local governments via:

- Webinars to local governments, predominately in regional and remote areas;
- Presentations at 12 WALGA Zone and Local Government Professional WA meetings;
- Responses to email and telephone enquiries from individual local governments.

It was apparent from the consultations local governments were most commonly concerned about the:

- potential cost of Redress payments;
- availability of historical information;
- capacity of local governments to provide a Direct Personal Response (apology) if requested by Redress recipients;

- process and obligations relating to maintaining confidentiality if Redress applications are received, particularly in small local governments;
- lack of insurance coverage of Redress payments by LGIS, meaning local governments would need to self-fund participation and Redress payments.

LGIS published and distributed an update (April 2019) regarding the considerations and (potential) liability position of the WA local government sector in relation to the National Redress Scheme.

The WALGA State Council meeting on 3 July 2019 recommended that:

1. *WA local government participation in the State's National Redress Scheme declaration with full financial coverage by the State Government, be endorsed in principle, noting that further engagement with the sector will occur in the second half of 2019.*
2. *WALGA continue to promote awareness of the National Redress Scheme and note that local governments may wish to join the Scheme in the future to demonstrate a commitment to the victims of institutional child sexual abuse.*

DLGSC representatives presented at a WALGA hosted webinar on 18 February 2020 and presented at all WALGA Zone meetings in late February 2020.

The State's decision, in particular to cover the costs / payments to the survivor, has taken into account the feedback provided by local governments during the consultation detailed above.

Statutory Environment:

The Shire of Ravensthorpe in agreeing to join the Scheme, is required to adhere to legislative requirements set out in the *National Redress Scheme for Institutional Child Sexual Abuse Act 2018* (Cth).

Authorisation of an appropriately appointed person to execute a service agreement with the State, if a Redress application is received, will be in accordance with s.9.49A(4) of the *Local Government Act 1995*.

Policy Implications:

As this report details matters of a historical nature there are no policy implications.

Financial Implications:

The State's decision will cover the following financial costs for local governments:

- Redress monetary payment provided to the survivor;
- Costs in relation to counselling, legal and administration (including the coordination or requests for information and record keeping); and
- Trained staff to coordinate and facilitate a Direct Personal Response (DPR – Apology) to the survivor if requested (on a fee for service basis with costs to be covered by the individual local government – see below).

The only financial cost the local government may incur will be the payment of the DPR's, which is on an 'as requested' basis by the survivor. This will be based on the standard service fee of \$3,000 plus travel and accommodation depending on the survivor's circumstances. All requested DPR's will be coordinated and facilitated by the Redress Coordination Unit – Department of Justice.

The State’s decision also mitigates a significant financial risk to the local government in terms of waiving rights to future claims. Accepting an offer of redress has the effect of releasing the responsible participating organisation and their officials (other than the abuser/s) from civil liability for instances of sexual abuse and related non-sexual abuse of the person that is within the scope of the Scheme. This means that the person who receives redress through the Scheme, agrees to not bring or continue any civil claims against the responsible participating organisation in relation to any abuse within the scope of the Scheme.

A risk matrix has been prepared and a risk rating of 5 has been determined for this item. 13.2 Gym Membership – COVID-19

Previous Reference:	N/A

Summary:

This report recommends Council authorise the Chief Executive Officer to grant gymnasium membership extensions or refunds for individuals and organisations impacted by COVID-19 restrictions associated with temporary closure of the Shire of Ravensthorpe's two gymnasiums.

Background:

The Shire of Ravensthorpe operates two unstaffed public gymnasiums in the town sites of Ravensthorpe and Hopetoun. The gymnasiums are designed for use 24 hours a day, 7 days a week.

Due to the Coronavirus (COVID-19) Pandemic both gymnasiums were closed with effective from 23 March 2020.

There are currently twenty six (26) community members whose memberships were paid in advance of the government imposed shutdown. Memberships ranged from one (1) week to six (6) months payment in advance.

In addition there is one corporate membership associated with Galaxy Lithium Australia Limited. On the 24 January 2020 the Ravensthorpe Gymnasium opened a new facility that included new equipment and facilities. Galaxy Lithium Australia Limited contributed \$38,000 to the funding of the new gymnasium. In return the Shire provided Galaxy with a pool of 50 memberships for use by its employees for a two year period to expire 28 February 2022.

The COVID-19 WA recovery roadmap being undertaken by the Department of Premier and Cabinet aims to assist all Western Australians back to work safely and begin the process of restarting the State's economy. It has been developed in conjunction with the National Cabinet principles and is based on the best health advice for WA.

The recovery road map is being undertaken in four phases, presently we are in phase three which allows gyms to offer the normal range of activities, including use of all gym equipment. However this is conditional on gyms being staffed at all times and undertaking a regular cleaning schedule of equipment.

The Shires gymnasiums are not staffed and therefore ineligible to open at this stage. Advice is that phase four is still to be defined, therefore it remains unclear how this will impact on the availability of the Shire's gymnasium facilities.

Comment:

The gymnasium fees applied were on the basis of unrestricted accessibility for users. With the current restrictions in place it would be appropriate to allow the Chief Executive Officer the ability to extend or refund gym membership for the period of the gymnasiums closure.

Consultation:

Council
Executive Team

Statutory Environment:

S6.17 of the *Local Government Act 1995* prescribes the setting of fees and charges. In determining the amount of a fee or charge for a service or for goods a local government is required to take into consideration the following factors;

- (a) the cost to the local government of providing the service or goods;
- (b) the importance of the service or goods to the community; and
- (c) the price at which the service or goods could be provided by an alternative provider.

Policy Implications:

Nil.

Financial Implications:

The 2019/2020 Shire of Ravensthorpe budget anticipated an operating revenue from gymnasium memberships of \$25,000 per annum, this was adjusted at the mid-year budget review to \$20,000 as a result of the Ravensthorpe Gymnasium refurbishments. Current income received to date is in the order of \$15,000 and is not likely to receive additional revenue in this current financial year.

The overall financial costs for the advanced membership payments is approximately \$1,500.

Strategic Implications:

Nil.

Sustainability Implications:

- **Environmental:** There are no known significant environmental considerations.
- **Economic:** There are no known significant economic considerations.
- **Social:** The gymnasium facilities provide an essential service to the Community for overall wellbeing. The Shire will open the facilities as soon as the restrictions are lifted.

Risk Implications:

Risk	Low (2)
Risk Likelihood (based on history and with existing controls)	Low (2)
Risk Impact / Consequence	Low (2)

Unlikely	2	Low (2)	Low (4)	Medium (6)	Medium (8)	High (10)
Rare	1	Low (1)	Low (2)	Low (3)	Low (4)	Medium (5)

A risk is often specified in terms of an event or circumstance and the consequences that may flow from it. An effect may be positive, negative or a deviation from the expected and may be related to the following objectives; occupational health and safety, financial, service interruption, compliance, reputation and environment. A risk matrix has been prepared and a risk rating of 2 has been determined for this item. Voting Requirements:

That Council endorse the Chief Executive Officer to be authorised to grant gymnasium membership extensions or refunds for individuals, and membership extensions for Galaxy Lithium Australia Limited who have been impacted by COVID-19 restrictions associated with temporary closure of the Shire of Ravensthorpe’s two gymnasiums.

13.5 Revised Fitzgerald Coast Brand and Logo

File Reference:	ED.ID.1
Location:	Shire of Ravensthorpe
Applicant:	Nil
Author:	Tourism Officer
Authorising Officer	Chief Executive Officer
Date:	9 June 2020
Disclosure of Interest:	Nil
Attachments:	Draft Fitzgerald Coast Logo Concept Drawings (Attachment Brown)
Previous Reference:	Nil

Summary:

For Council to consider the endorsement of the concept and amendment to the current 'Fitzgerald Coast' brand and with the logo being changed to 'Fitzgerald Coast Biosphere'.

Background:

Following the report, *Fitzgerald Biosphere Tourism Planning and Development Strategy* by Advance Tourism, commissioned by the Shire of Ravensthorpe and Shire of Jerramungup in March 2007, the name Fitzgerald Coast was accepted as the tourism brand for region which also resulted in the formation of the Fitzgerald Coast Tourism Association (FCTA).

At the time of the report the UNESCO listed Fitzgerald Biosphere only covered the Fitzgerald River National Park. Since then, the Fitzgerald Biosphere was required to renominate to make changes to meet the new criteria for Biosphere Reserves. As a result, in 2018 the Fitzgerald Biosphere was successful in its renomination with an extended biosphere reserve of 1.5 million hectares of conservation estate, state waters, farmland and industrial and urban areas with the Fitzgerald River National Park at its core.

The Fitzgerald Coast brand which has helped provide some recognition for the region, but as a destination brand has not been effective. Instead it was seen as a corporate logo for FCTA who provide another source for visitor information, duplicating the roles of the two visitor centres. Since the cessation of FCTA and with the Shire undertaking the tourism promotion under the Fitzgerald Coast banner, there has been some improvement, however the brand is often only associated with the coastline, the Fitzgerald River National Park and town of Hopetoun rather than the whole district Ravensthorpe or the region.

Comment:

A strong and consistently applied brand is central to any aspirational visitation growth. In the face of increasing competition and to optimise and influence relevant targeted markets, the region needs a brand identity that helps to set our destination apart from our competitors, highlighting our point of difference, unique qualities and attractiveness to visitors and industry outside of the region.

Presently the region has little recognition within both the tourism industry and domestic visitor market despite the considerable unique natural attractions and features and being one of only two biospheres in Western Australia. Increasing industry knowledge and awareness especially within Tourism WA of what our region has to offer is vital if we are to partner and develop new itineraries and packaging to attract the inbound coach market or to leverage and attract visitors travelling between Albany, Esperance and Wave Rock.

Although the current Fitzgerald Coast name could be developed into a place brand, it would be directly competing against Amazing South Coast and Esperance and there would still be a disconnect to the inland areas including Ravensthorpe with a perception that tourism only exists on the coast. More importantly it does not connect us to one of our most important assets, the biosphere.

Both Amazing South Coast and Esperance including many other destinations in Southern Western Australia offer coastal experiences, however, what makes our region unique is our internationally recognised biosphere.

It is proposed that the existing Fitzgerald Coast logo and name be amended to create a place brand for the region which would be known as 'Fitzgerald Coast Biosphere'. It is important to realise that today's society is much more cognisant and appreciative of the environment and would be more receptive to the use of the term biosphere within the brand name. However we cannot ignore when targeting a broader tourism market that the coast is a natural drawcard for visitors as well as it helps to identify where the biosphere is located and it is strongly recommended to keep within the name.

A place brand, which is different to a corporate brand helps to build an overall image or identity for a location that focuses above all on the unique qualities of the area and enables key stakeholders, businesses, community groups and residents to "live and use the brand". The Shire of Ravensthorpe is fortunate in that the unique qualities of the Fitzgerald Biosphere is already internationally recognisable through its UNESCO listing and provides the common link for our community.

To develop a place brand would normally involve extensive community consultation to help determine a localities key attributes and the revision of the Fitzgerald Coast logo is not to replace this process. However, due to the major impact of the pandemic on the tourism industry the State Government through Tourism WA is now undertaking a major presence within the intrastate market, normally the role of the Regional Tourism Organisations, with the aim to stimulate the industry and encourage dispersal to regional areas. This provides an opportune time for the Shire to promote the importance and increase the recognition of the Fitzgerald Biosphere through our place branding. Although formal consultation was not undertaken, the community through various forums have clearly identified that being part of the Fitzgerald Biosphere is valued and has high importance. This is evident historically through strong community support and convening of the Biosphere Implementation Group in 2010 to ensure the renomination of the biosphere and the subsequent community's elation in celebrating the success of the nomination in 2018.

Through the use and promotion of the place brand will help position the Shire of Ravensthorpe to establish itself as the Fitzgerald Coast Biosphere hub for the region. This would be reflected through our visitor servicing, all marketing and the ethos of the biosphere once accepted by the community could underpin future policies, innovations, events, structures, investments and symbolic actions.

Concept drawings providing two versions of the logo (Version 1(A & B) and Version 2 (A & B) with a slight variation of each) were prepared as shown in the draft Fitzgerald Coast Logo Concept Drawing (Attachment). The new logo utilises the existing graphics of the Fitzgerald Coast logo to allow some continuity with our existing markets, with changes made to the colours to better represent the area covered by the boundaries of biosphere, which included the inland farming community (yellow) and mining industry (red). Introducing the new colour scheme also provides a connection to the existing colours within the Shire of Ravensthorpe logo.

Consultation:

Council.

Executive Team.

Regional Tourism Organisation.

Should Council proceed with the name change, there may be some dissention within the Fitzgerald Biosphere Community Collective (FBCC), a collective group of stakeholders that initially was formed to oversee the preparation of the renomination of the Biosphere in late 2010 and after the successful relisting was restructured to work on the Fitzgerald Biosphere Action Plan.

Stakeholder engagement will need to be undertaken to ensure that both organisations who share aligned interests in the protection and education within the Fitzgerald Biosphere are carefully managed.

Statutory Environment:

It will be important to ensure brand protection as defined in the Trade Marks Act 1995. Trade Marks are an important marketing tool because the value of the trade mark increases with the success of marketing program. It should be noted that the Chief Executive Officer has commenced protecting the naming rights and logo in anticipation of a formal resolution of Council (as discussed at the Corporate Discussion on 2 June 2020).

Policy Implications:

Nil.

Financial Implications:

Costs associated with rebranding and registration fees will be minimalised and will be contained within the existing operational budget.

Strategic Implications:

The Shire of Ravensthorpe through taking a leadership role in developing a place brand will help to promote tourism and economic development. Through the creation of a place brand we are effectively creating our own a sub-region within Australia’s Golden Outback and by utilising the area covered under the Fitzgerald Biosphere as a future guide, there is the potential to grow and partner with all stakeholders including the Shire of Jerramungup who fall within the boundaries of the biosphere.

Sustainability Implications:

- **Environmental:** The acknowledgement of the Biosphere by way of its place branding confirms the Shire of Ravensthorpe’s recognition and support of the ethos
- **Economic:** This place branding will endeavour to promote greater tourism for the District.
- **Social:** The investment in the Fitzgerald Coast Biosphere place branding will aim to support the various community groups and stakeholders who aim to protect the biosphere.

15.1 Application to Keep More than Prescribed Number of Dogs

File Reference: LE.LL.11 & A826

Author: Airport/Ranger Officer

Disclosure of Interest: Nil

Previous Reference: Nil

Summary:

An application to keep more than the prescribed number of dogs has been received from Matthew Biddiscombe of 21 Canning Boulevard, Hopetoun. Mr Biddiscombe has in his control three (3) dogs, one (1) of which, is an 11 year old Wolfhound Cross. Mr Biddiscombe moved into the property in 2019 and inherited the Wolfhound Cross on the passing of his mother. Early 2020, Mr Biddiscombe took on two rescued Staffordshire Bull Terrier type dogs, both de-sexed, microchipped and registered.

Background:

On 20 April 2020, the Shire received a complaint in relation to dog barking at 21 Canning Boulevard, Hopetoun. An investigation was undertaken where it was found, three (3) dogs were being kept at the property. The Shire of Ravensthorpe Dog Local Law 2010, section 3.2 provides that only two (2) dogs over the age of 3 months can be kept at a premise situated within a Townsite.

The *Dog Act 1976*, Section 26(3), allows the Shire to grant an exemption to a placed limit on the keeping of dogs in a specified area if the local government is satisfied the provisions in the Act are met.

Comment:

During the course of the investigation into the dog barking complaint and subsequent keeping more than the prescribed number dogs, Mr Biddiscombe has followed all directions given to him and actively sought to reduce the dog barking complaint by fixing of fencing, purchase and use of dog barking collars. He has also ensured all dogs are now registered, microchipped and sterilised.

It should be noted the initial complainant regarding barking has now been finalised with the complainant verbally requesting to close the complaint off and no objection to the application.

Consultation:

Request for Comment was sent to five parties, made up of four (4) property owners and one (1) occupier, on 18 May 2020. It was requested submissions were returned to the Shire by 5 June 2020. It was noted on these submissions if no comment was received the Shire would consider no objection to the application.

One submission of no objection was received at the Shire on 3 June 2020.

The new Bush Fire Service Bush Firefighter training is detailed in Attachment 2. The program is modular and can be delivered over a course of nights or over a whole day to assist in flexible learning practices based upon the availability of volunteers. Those volunteers currently who hold an Introduction to Bushfire Fire Fighting course will be noted as having Recognition of Prior Learning across the Bushfire Safety Awareness module of units. Volunteers who currently hold Introduction to Fire Fighting (IFF) and Bushfire Fire Fighting (BFF) will be also be noted as having Recognition of Prior Learning for the whole BFS Bush Firefighter

The BFAC put forward the following recommendation to Council;

“Recommend the Shire of Ravensthorpe adjust the training standards for Bush Fire Volunteers to the new Bushfire training modules, where volunteers will need to complete the modules listed under the BFS Bush Firefighter.”

Regional Operations Advisory Committee (ROAC)

A proposal was submitted by the City of Albany to the Regional Operations Advisory Committee (ROAC) that instead of individual Local Governments bidding against it each other for Capital Grants, Appliance and Equipment. Each Local Government prioritises their individual needs and then the ROAC combine all the priority requests for a collaborative approach at a regional level, in partnership of other Lower Great Southern Local Governments to help push these priority needs as a regional focus to DFES.

Summary:

This report is prepared as a brief on how the implantation of the Local Government (COVID-19) Order 2020 has an effect on rating strategy for 2020-2021.

Background:

On the 08 May 2020 the Minister for Local Government; Heritage; Culture and the Arts released an Order to modify or suspend provisions of the *Local Government Act 1995* and Regulations where the Minister considers that such an order is necessary to deal with the consequences of the COVID-19 pandemic State of Emergency.

The first Order was made to deal with issues relating to the requirements to hold public meetings, access to information when council offices are closed and budgetary matters. This report deals with budgetary matters in how it effects rating strategy outcomes.

Comment:

Normally a local government, when preparing a budget, needs to have regard to the contents of the plan for the future. This has been modified to have regard to the consequences of the COVID-19 pandemic as well as the plan for the future.

Penalty interest charged on overdue rates has been reduced from 11% to 8% which is estimated to have a \$10,000 budgetary impact on revenues.

When setting the interest rate on overdue rates, the local government will need to resolve that penalty interest will not apply to a person who is considered by the local government to be suffering hardship as a consequence of the COVID-19 pandemic. The Council has a Financial Hardship Policy F11 in place that covers a range of situations that affect a person's ability to meet basic living needs. The assessment of such is left to the local government therefore in COVID-19 circumstances we would be looking for substantiation of turnover comparatives or loss of personal income in line with ATO guidelines. Potential budgetary impact is estimated at \$7,000.

Rates Freeze Benefits: If the Shire resolves to freeze rates in the dollar at or below those imposed in 2019/20, then the Shire would be released from having to obtain Ministerial Approval for differential rates, thus reducing the regulatory burden and time delay taken for receiving Ministerial approval. This would directly benefit the Shire in the speed of adopting the budget.

Another regulatory benefit of a "Rates Freeze" is that local governments can forego the need to advertise rates in the dollar for 21 days and the need to consider submissions before adopting the budget. This would also directly benefit the Shire in the speed of adopting the budget.

Strategy Consideration: There has been no Gross Rental Re-Valuation for 2020-2021 therefore rates in the dollar can remain the same to freeze rates, however there has been an Unimproved Re-Valuation with a slight increase in values, therefore in order to freeze the dollar yield in rates from the previous year, the rates in the dollar would be slightly adjusted downward thus still conforming the Minister’s definition of “Rates Freeze”.

Statutory Environment:
Local Government Act 1995, Sections 6.2, 6.13, 6.33, 6.36, 6.51.

Financial Implications:
It is estimated that the reduction of penalty interest will reduce revenue by \$10,000 and an increase in interest write offs will increase expenditure by \$7,000. The Freezing of Rates is estimated to cause a loss of \$135,000 in potential rate revenue based on 3%.

Summary:

For Council to consider Development Application P20-15 for a Covered Short-Term Car Parking Area and Secure Storage Area at Lot 54 (81/279) Hopetoun-Ravensthorpe Road, Hopetoun.

Background:

Shire of Ravensthorpe received Development Application P20-15 for a Covered Short-Term Car Parking Area and Secure Storage Area at Lot 54 (81/279) Hopetoun-Ravensthorpe Road, Hopetoun on 7 April 2020.

The application was publicly advertised between 8 April 2020 and 29 April 2020 with no comments or objections being received.

The Shire CEO has requested that the application be sent to Council for determination due to the variation proposed to the front setback.

Comment:

Background:

Lot 54 (81/279) Hopetoun-Ravensthorpe Road, Hopetoun, also known as Wavecrest, is a 4.68 hectare Tourism zoned lot located to the north of the Hopetoun Townsite. The property is currently developed as a mixed short-term/long-term park home park, motel and tavern.

Assessment:

The proposal calls for a front setback variation. The setback required for the Tourism zone is 6 metres. In this instance the applicant proposes a 1 metre setback to the front wall of the covered parking area and secure storage area.

Aside from a proposed variation to the front setback, the proposal is compliant with the provisions of Local Planning Scheme No. 6.

Response to Applicants Justification:

Planning Services acknowledges that there is an extended distance between the road and the proposed development, largely due to a wide road reserve. The proposed development should not impact on sight lines to and from the property and will still permit for safe access and egress to and from the property.

Consultation:

The application was publicly advertised between 8 April 2020 and 29 April 2020 with no comments or objections being received.

Statutory Environment:

Local Planning Scheme No. 6.

The applicant has a right of review to the State Administrative Tribunal if aggrieved by any planning decision.

It should also be noted that pursuant to Section 211(1) of the *Planning and Development Act 2005*, a person aggrieved by the failure of a local government to enforce or implement effectively the observance of a local planning scheme may make representation to the Minister. If the Minister considers it appropriate to do so, representation may be referred to the State Administrative Tribunal for its report and recommendation. Following subsequent actions and recommendation by the SAT the Minister may order the local government to do all things considered necessary for enforcing the observance of the Scheme or any provisions of the Scheme.

1. SUMMARY - WA LOCAL GOVERNMENT: ROYAL COMMISSION AND REDRESS

The Western Australian Government (the State), through the Department of Local Government, Sport and Cultural Industries (DLGSC), has been consulting with the WA local government sector and other key stakeholders on the Royal Commission into Institutional Responses to Child Sexual Abuse (in 2018) and the National Redress Scheme (in 2019).

The consultation throughout 2019 has focused on the National Redress Scheme (the Scheme) with the aim of:

- raising awareness about the Scheme;
- identifying whether WA local governments are considering participating in the Scheme;
- identifying how participation may be facilitated; and
- enabling advice to be provided to Government on the longer-term participation of WA local governments.

Following this initial consultation and feedback gathered, the State Government considered a range of options regarding WA local government participation in the Scheme and reached a final position in December 2019.

DLGSC, supported by the Departments of Justice and Premier and Cabinet, will again engage with WA local governments in early 2020, to inform of the:

- State's decision and the implications for the sector (see [Section 4](#));
- Support (financial and administrative) to be provided by the State; and
- Considerations and actions needed to prepare for participation in the Scheme from 1 July 2020 (see [Section 5](#)).

DLGSC's second phase of engagement with WA local governments is summarised in the table below:

2. CURRENT SITUATION - WA LOCAL GOVERNMENT PARTICIPATION IN THE NATIONAL REDRESS SCHEME

The WA Parliament passed the legislation required to allow for the Government and WA based non-government institutions to participate in the National Redress Scheme. The *National Redress Scheme for Institutional Child Sexual Abuse (Commonwealth Powers) Act 2018* (WA) took effect on 21 November 2018.

The WA Government commenced participating in the Scheme from 1 January 2019.

The State Government's Redress Coordination Unit within the Office of the Commissioner for Victims of Crime, Department of Justice:

- Acts as the State Government's single point of contact with the Scheme;
- Coordinates information from State Government agencies to the Scheme; and
- Coordinates the delivery of Direct Personal Responses (DPR) to redress recipients (at their request) by responsible State Government agencies to redress recipients.

CURRENT TREATMENT OF WA LOCAL GOVERNMENTS IN THE SCHEME

Under the *National Redress Scheme for Institutional Child Sexual Abuse Act 2018* (Cth), Local Governments may be considered a State Government institution.¹

There are several considerations for the State Government and Local Governments (both individually and collectively) about joining the Scheme.

The State Government considers a range of factors relating to organisations or bodies participation in the Scheme, before their inclusion in the declaration as a State Government institution. These factors include the capability and capacity of the agencies or organisations to:

- Respond to requests for information from the State Government's Redress Coordination Unit within prescribed timeframes;
- Financially contribute to the redress payment made by the Scheme on behalf of the agency or body; and
- Comply with the obligations of participating in the Scheme and the Commonwealth legislation.

A decision was made at the time of joining the Scheme to exclude WA local governments from the State Government's declaration. This was to allow consultation to occur with the local government sector about the Scheme, and for fuller consideration to be given to the mechanisms by which the sector could best participate in the Scheme.

¹ Section 111(1)(b).

3. CONSULTATION TO DATE WITH WA LOCAL GOVERNMENT SECTOR

The Department of Local Government, Sport and Cultural Industries (DLGSC) has been leading an information and consultation process with the WA local government sector about the Scheme. The Departments of Justice and Premier and Cabinet (DPC) have been supporting DLGSC in the process, which aimed to:

- Raise awareness about the Scheme;
- Identify whether local governments are considering participating in the Scheme;
- Identify how participation may be facilitated; and
- Enable advice to be provided to Government on the longer-term participation of WA local governments.

DLGSC distributed an initial *Information and Discussion Paper* in early January 2019 to WA local governments, the WA Local Government Association (WALGA), Local Government Professionals WA (LG Pro) and the Local Government Insurance Scheme (LGIS). Between March and May 2019, DLGSC completed consultations that reached 115 out of 137 WA local governments and involved:

- an online webinar to 35 local governments, predominantly from regional and remote areas;
- presentations at 12 WALGA Zone and LG Pro meetings; and
- responses to email and telephone enquiries from individual local governments.

It was apparent from the consultations that the local government sector had, at the time, a very low level of awareness of the Scheme prior to the consultations occurring, and that little to no discussion had occurred within the sector or individual local governments about the Scheme. Local governments were most commonly concerned about the:

- Potential cost of redress payments;
- Availability of historical information;
- Capacity of local governments to provide a Direct Personal Response (apology) if requested by redress recipients;
- Process and obligations relating to maintaining confidentiality if redress applications are received, particularly in small local governments;
- Lack of insurance coverage of redress payments by LGIS, meaning local governments would need to self-fund participation and redress payments.

LGIS Update (April 2019) – National Redress Scheme

LGIS published and distributed an update regarding the considerations and (potential) liability position of the WA local government sector in relation to the National Redress Scheme.

WALGA State Council Resolution

The WALGA State Council meeting of 3 July 2019 recommended that:

1. *WA local government participation in the State's National Redress Scheme declaration with full financial coverage by the State Government, be endorsed in principle, noting that further engagement with the sector will occur in the second half of 2019.*
2. *WALGA continue to promote awareness of the National Redress Scheme and note that local governments may wish to join the Scheme in the future to demonstrate a commitment to the victims of institutional child sexual abuse.*

It is understood that this recommendation was made with knowledge that it is ultimately a State Government decision as to whether:

- Local governments can participate in the Scheme as part of the State's Government's declaration; and
- The State Government will fund local government redress liability.

4. WA GOVERNMENT DECISION - FUTURE PARTICIPATION OF WA LOCAL GOVERNMENTS IN THE NATIONAL REDRESS SCHEME

Following the initial consultation process, a range of options for local government participation in the Scheme were identified by the State Government including:

1. WA Local governments be **excluded** from the State Government's declaration of participating institutions.

This means that: local governments may choose not to join the Scheme; or join the Scheme individually or as group(s), making the necessary arrangements with the Commonwealth and self-managing / self-funding all aspects of participation in the Scheme.

2. WA Local governments be **included** in the State Government's declaration of participating institutions.

There were three sub-options for ways local government participation as a State Government institution could be accommodated:

- a. Local governments cover all requirements and costs associated with their participation;
- b. The State Government covers payments to the survivor arising from local governments' participation, with costs other than payments to the survivor (including counselling, legal and administrative costs) being funded by local governments; or
- c. An arrangement is entered into whereby the State Government and local governments share the requirements and costs associated with redress – for example, on a capacity to pay and deliver basis.

The State Government considered the above options and resolved via the Community Safety and Family Support Cabinet Sub-Committee (December 2019) to:

- Note the consultations undertaken to date with the WA local government sector about the National Redress Scheme;
- Note the options for WA local government participation in the Scheme;
- Agree to local governments participating in the Scheme as State Government institutions, with the State Government covering payments to the survivor; and
- Agree to the DLGSC leading further negotiations with the WA local government sector regarding local government funding costs, other than payments to the survivor including counselling, legal and administrative costs.

KEY ASPECTS OF THE STATE'S DECISION

For clarity, the State's decision that means the following financial responsibilities are to be divided between the State Government and the individual local government that has a Redress application submitted, and then subsequently accepted by the Scheme Operator as a Redress claim.

State Government

The State Government will cover the following:

- Redress monetary payment provided to the survivor;
- Costs in relation to counselling, legal and administration (including the coordination of requests for information and record keeping); and
- Trained staff to coordinate and facilitate a Direct Personal Response or DPR (Apology) to the survivor if requested (on a fee for service basis with costs covered by the individual local government – see below).

Individual Local Government

The individual local government will be responsible for:

- Costs associated with gathering their own (internal) information if requested in a Redress application;
- Providing the State with the necessary information to participate in the Scheme; and
- Costs associated the delivery of a DPR (based on a standard service fee, plus travel and accommodation depending on the survivor's circumstance). *

* note – The State's decision includes that all DPR's will be coordinated and facilitated by the Redress Coordination Unit (Department of Justice) on every occasion, if a DPR is requested by the survivor.

This decision was made on the basis that:

- State Government financial support for local government participation in the Scheme, as set out, will ensure that redress is available to as many WA survivors of institutional child sexual abuse as possible.
- The demonstration of leadership by the State Government, as it will be supporting the local government sector to participate in the Scheme and recognising the WALGA State Council resolution of 3 July 2019, is consistent with the local government sector's preferred approach.
- Contributes to a nationally consistent approach to the participation of local governments in the Scheme, and particularly aligns with the New South Wales, Victorian and Tasmanian Governments' arrangements. This provides opportunity for the State Government to draw on lessons learned through other jurisdictions' processes.
- Ensures a consistent and quality facilitation of a DPR (by the State) if requested by the survivor.
- State Government financial support for any local government redress claims does not imply State Government responsibility for any civil litigation against local governments.

Noting the State's decision, a range of matters need to be considered and arrangements put in place to facilitate local governments participating with the State Government's declaration and meeting the requirements of the Scheme. Those arrangements will:

- provide for a consistent response to the Scheme by WA Government institutions, and for WA survivors accessing the Scheme; and
- mitigate concerns raised by local governments during consultations about complying with the processes and requirements of the Scheme.

5. CONSIDERATIONS FOR WA LOCAL GOVERNMENTS

Following the State's decision, a range of matters need to be considered by each local government and in some cases, actions taken in preparation for participating in the Scheme, these include:

CONFIDENTIALITY

- Information about applicants and alleged abusers included in RFIs (Requests for Information) is sensitive and confidential and is considered protected information under *The National Redress Act*, with severe penalties for disclosing protected information.
- Individual local governments will need to consider and determine appropriate processes to be put in place and staff members designated to ensure information remains confidential.

APPLICATION PROCESSING / STAFFING

- The timeframes for responding to an RFI are set in *The Act* and are 3 weeks for priority application and 7 weeks for non-priority applications. This RFI process will be supported by the State (DLGSC and the Redress Coordination Unit).
- Careful consideration should be given to determining which position will be responsible for receiving applications and responding to RFIs, due to the potentially confronting content of people's statement of abuse.
- Support mechanisms should be in place for these staff members, including access to EAP (Employee Assistance Program) or other appropriate support.
- The need for the appointed position and person(s) to have a level of seniority in order to understand the magnitude of the undertaking and to manage the potential conflicts of interest.
- The responsible position(s) or function(s) would benefit from being kept confidential in addition to the identity of the person appointed to it.

RECORD KEEPING

- The Redress Coordination Unit (Department of Justice) is the state record holder for Redress and will keep copies of all documentation and RFI responses. Local Governments will be required to keep their own records regarding a Redress application in a confidential and secure manner, and in line with all requirements of the *State Records Act 2000*.
- Consider secure storage of information whilst the RFI is being responded to.

REDRESS DECISIONS

- Decisions regarding redress applicant eligibility and responsible institution(s) are made by Independent Decision Makers, based on the information received by the applicant and any RFI responses. The State government does not have any influence on the decision made.
- There is no right of appeal.

MEMORIALS

- Survivors (individuals and / or groups) from within individual communities may ask about the installation of memorials. The State Government's view is to only consider memorialising groups, however locally, this is a decision of an individual local government.

6. NEXT STEPS – PREPARATION FOR WA LOCAL GOVERNMENT PARTICIPATION IN THE SCHEME

In addition to the second-phase information process outlined in section 1, the State will develop:

1. A Memorandum of Understanding (MOU) - to be executed between the State and WALGA following the (WALGA) State Council meeting on 4 March 2020.

The MOU will capture the overall principles of WA local governments participating in the Scheme as State Government institutions and being part of the State's declaration; and

2. Template Service Agreement – that will be executed on an 'as needed' basis between the State and an individual local government, if a redress application is received.

DLGSC and the Department of Justice will work with WALGA / LGPro and all local governments to prepare for participation in the Scheme including:

- Identifying appropriate positions, staff and processes to fulfil requests for information;
- Ensuring local governments have delegated authority to an officer to execute a service agreement with the State if needed;

The State will prepare a template Council report, where all WA local governments will be asked to delegate authority to an appropriate officer in advance, able to execute a service agreement if required. This is necessary as priority requests for information under the Scheme, are in a shorter turnaround time than Council meeting cycles and therefore, cannot be undertaken at the time.

- Ensuring local government have established appropriate processes and can fulfil Scheme obligations (particularly in terms of confidentiality, record keeping etc); and
- Gathering the necessary facility and service information from all individual local governments to commence participation in the Scheme. This information will be provided to the Commonwealth, loaded into the Scheme database and used to facilitate an individual local government's participation in the National Redress Scheme.

APPENDIX A

ROYAL COMMISSION INTO INSTITUTIONAL RESPONSES TO CHILD SEXUAL ABUSE – FURTHER INFORMATION

The Royal Commission into Institutional Responses to Child Sexual Abuse (the Royal Commission) was established in January 2013, to investigate systemic failures of public and private institutions² to protect children from child sexual abuse, report abuse, and respond to child sexual abuse. The Royal Commission's Terms of Reference required it to identify what institutions should do better to protect children in the future, as well as what should be done to:

- achieve best practice in reporting and responding to reports of child sexual abuse;
- eliminate impediments in responding to sexual abuse; and
- address the impact of past and future institutional child sexual abuse.

The Western Australian Government (State Government) strongly supported the work of the Royal Commission through the five years of inquiry, presenting detailed evidence and submissions and participating in public hearings, case studies and roundtables.

The Royal Commission released three reports throughout the inquiry: *Working with Children Checks (August 2015)*; *Redress and Civil Litigation (September 2015)* and *Criminal Justice (August 2017)*. The Final Report (Final Report) of the Royal Commission into Institutional Responses to Child Sexual Abuse incorporated the findings and recommendations of the previously released reports and was handed down on 15 December 2017. To access a full version of the Royal Commission's Findings and the Final Report, follow the link at <https://www.childabuseroyalcommission.gov.au/>

The Royal Commission made 409 recommendations to prevent and respond to institutional child sexual abuse through reform to policy, legislation, administration, and institutional structures. These recommendations are directed to Australian governments and institutions, and non-government institutions. One specific recommendation was directed at Local Government, while many others will directly or indirectly impact on the organisations that Local Government works with and supports within the community.

Of the 409 recommendations, 310 are applicable to the Western Australian State Government and the broader WA community.

² * For clarity in this Paper, the term 'Institution' means any public or private body, agency, association, club, institution, organisation or other entity or group of entities of any kind (whether incorporated or unincorporated), however described, and:

- Includes for example, an entity or group of entities (including an entity or group of entities that no longer exist) that provides, or has at any time provided, activities, facilities, programs or services of any kind that provide the means through which adults have contact with children, including through their families
- Does not include the family.

THE WESTERN AUSTRALIAN GOVERNMENT RESPONSE TO THE ROYAL COMMISSION

The State Government examined the 310 applicable recommendations and provided a comprehensive and considered response, taking into account the systems and protections the State Government has already implemented. The State Government has accepted or accepted in principle over 90 per cent of the 310 applicable recommendations.

The State Government's response was released on 27 June 2018 fulfilling the Royal Commission recommendation 17.1, that all governments should issue a formal response within six months of the Final Report's release, indicating whether recommendations are accepted; accepted in principle; not accepted; or will require further consideration. The WA Government's response to the Royal Commission recommendations can be accessed at:

<http://www.dpc.wa.gov.au/childabuseroyalcommission>

The State Government has committed to working on the recommendations with the Commonwealth Government, other states and territories, local government, non-government institutions (including religious institutions) and community organisations.

The State Government's overall approach to implementation of reforms is focused on:

- Stronger Prevention (including Safer Institutions and Supportive Legislation)
 - Create an environment where children's safety and wellbeing are the centre of thought, values and actions;
 - Places emphasis on genuine engagement with and valuing of children;
 - Creates conditions that reduce the likelihood of harm to children and young people.
- Reliable Responses (including Effective Reporting)
 - Creates conditions that increase the likelihood of identifying any harm;
 - Responds to any concerns, disclosures, allegations or suspicions of harm.
- Supported Survivors (including Redress).

Many of the recommendations of the Royal Commission have already been addressed through past work of the State Government, and others working in the Western Australian community to create safe environments for children. This work is acknowledged and where appropriate, will be built upon when implementing reforms and initiatives that respond to the Royal Commission's recommendations.

APPENDIX B

NATIONAL REDRESS SCHEME - FURTHER INFORMATION

The Royal Commission's *Redress and Civil Litigation (September 2015)* Report recommended the establishment of a single national redress scheme to recognise the harm suffered by survivors of institutional child sexual abuse.

The National Redress Scheme (the Scheme):

- Acknowledges that many children were sexually abused in Australian institutions;
- Recognises the suffering they endured because of this abuse;
- Holds institutions accountable for this abuse; and
- Helps people who have experienced institutional child sexual abuse gain access to counselling and psychological services, a direct personal response, and a redress-payment.

The National Redress Scheme involves:

- People who have experienced institutional child sexual abuse who can apply for redress;
- The National Redress Scheme team — Commonwealth Government staff who help promote the Scheme and process applications;
- Redress Support Services — free, confidential emotional support and legal and financial counselling for people thinking about or applying to the Scheme;
- Participating Institutions that have agreed to provide redress to people who experienced institutional child sexual abuse; and
- Independent Decision Makers who will consider applications and make recommendations and conduct reviews.

The National Redress Scheme formally commenced operation on 1 July 2018 and offers eligible applicants three elements of redress:

- A direct personal response from the responsible institution, if requested;
- Funds to access counselling and psychological care; and
- A monetary payment of up to \$150,000.

Importantly, the Scheme also provides survivors with community based supports, including application assistance; financial support services; and independent legal advice. The Scheme is administered by the Commonwealth Government on behalf of all participating governments, and government and non-government institutions, who contribute on a 'responsible entity pays' basis.

Institutions that agree to join the Scheme are required to adhere to the legislative requirements set out in the *National Redress Scheme for Institutional Child Sexual Abuse Act 2018* (Cth).

More information on the Scheme can be found at www.nationalredress.gov.au or the [National Redress Guide](#).

SURVIVORS IN THE COMMUNITY

Throughout the five years of its inquiry, the Royal Commission heard detailed evidence and submissions, and held many public and private hearings, case studies and roundtables. Most notably, the Royal Commission heard directly from survivors of historical abuse.

The Royal Commission reported that survivors came from diverse backgrounds and had many different experiences. Factors such as gender, age, education, culture, sexuality or disability had affected their vulnerability and the institutions response to abuse.

The Royal Commission, however, did not report on the specific circumstances of individuals with the details of survivors protected; the circumstances of where and within which institutions their abuse occurred is also protected and therefore unknown. Further, survivors within the WA community may have chosen to not disclose their abuse to the Royal Commission.

Accordingly, it is not known exactly how many survivors were abused within Western Australian institutions, including within Local Government contexts. Within this context of survivors in the community, who may or may not be known, consideration needs to be given to how all institutions, including local governments, can fulfil the Royal Commission's recommendation in relation to redress.

The Royal Commission's *Redress and Civil Litigation (September 2015)* Report recommended the establishment of a single national redress scheme to recognise the harm suffered by survivors of institutional child sexual abuse. This report also recommended that Governments around Australia remove the limitation periods that applied to civil claims based on child sexual abuse, and consequently prevented survivors – in most cases – pursuing compensation through the courts.

As a result of reforms made in response to these recommendations, WA survivors now have the following options to receive recognition of their abuse:

1. Pursuing civil court action(s) against the perpetrator and/or the responsible institution. The *Civil Liability Legislation Amendment (Child Sexual Abuse Actions) Act 2018* (WA) took effect on 1 July 2018, removing the limitation periods that previously prevented persons who had experienced historical child sexual abuse from commencing civil action.
2. Applying to the National Redress Scheme, which provides eligible applicants with a monetary payment, funds to access counselling and an apology. Note, to receive redress the responsible institution(s) will need to have joined the Scheme.

TREATMENT OF LOCAL GOVERNMENTS BY OTHER JURISDICTIONS

At the time of the State Government joining the Scheme, only two jurisdictions had made a decision about the treatment of local governments. All jurisdictions have since agreed to include local governments within their respective declarations, with the exception of South Australia (SA). The SA Government is still considering their approach.

It is understood that all jurisdictions, with the exception of SA, are either covering the redress liability associated with local government participation in the Scheme or entering into a cost sharing arrangement. The table below provides a summary of other jurisdictions' positions.

Jurisdiction	Position
Commonwealth	<ul style="list-style-type: none"> No responsibility for local governments. The Commonwealth Government has indicated preference for a jurisdiction to take a consistent approach to the participation of local governments in the Scheme.
Australian Capital Territory (ACT)	<ul style="list-style-type: none"> ACT has no municipalities, and the ACT Government is responsible for local government functions. ACT has therefore not been required to explore the issue of local government participation in the Scheme.
New South Wales (NSW)	<ul style="list-style-type: none"> In December 2018, the NSW Government decided to include local councils as NSW Government institutions and to cover their redress liability. The NSW Office for Local Government is leading communications with local councils about this decision. NSW's declaration of participating institutions will be amended once preparation for local council participation is complete.
Northern Territory (NT)	<ul style="list-style-type: none"> The NT Government has consulted all of the Territory's local governments, including individually visiting each local government. NT is in the process of amending Territory's declaration of participating institutions to include local governments.
Queensland	<ul style="list-style-type: none"> Queensland is finalising a memorandum of understanding (MOU) with the Local Government Association of Queensland to enable councils to participate in the Scheme as State institutions. The MOU includes financial arrangements that give regard to individual councils' financial capacity to pay for redress.
South Australia (SA)	<ul style="list-style-type: none"> Local governments are not currently included in the SA Government's declaration The SA Government is still considering its approach to local governments.
Tasmania	<ul style="list-style-type: none"> Local Governments have agreed to participate in the Scheme and will be included as a state institution in the Tasmanian Government's declaration. A MOU with local governments is being finalised, ahead of amending Tasmania's declaration.
Victoria	<ul style="list-style-type: none"> The Victorian Government's declaration includes local governments. The Victorian Government is covering local governments' redress liability.
Western Australia (WA)	<ul style="list-style-type: none"> The WA Government has excluded local governments from its declaration, pending consultation with the local government sector.

TIMEFRAME TO JOIN THE SCHEME

Institutions can join the Scheme within the first two years of its commencement. This means that institutions can join the Scheme up to and including 30 June 2020 (the second anniversary date of the Scheme). The Commonwealth Minister for Social Services may also provide an extension to this period to allow an institution to join the Scheme after this time. However, it is preferred that as many institutions as possible join the Scheme within the first two years to give certainty to survivors applying to the Scheme about whether the institution/s in which they experienced abuse will be participating.

If an institution has not joined the Scheme, they are not a participating institution. However, this will not prevent a person from applying for redress. In this circumstance, a person's application cannot be assessed until the relevant institution/s has joined the Scheme. The Scheme will contact the person to inform them of their options to either withdraw or hold their application. The Scheme will also contact the responsible institution/s to provide information to aid the institution/s to consider joining the Scheme.

THE SCHEME'S STANDARD OF PROOF

The Royal Commission recommended that 'reasonable likelihood' should be the standard of proof for determining eligibility for redress. For the purposes of the Scheme, 'reasonable likelihood' means the chance of the person being eligible is real and is not fanciful or remote and is more than merely plausible.

When considering a redress application, the Scheme Operator must consider whether it is reasonably likely that a person experienced sexual abuse as a child, and that a participating institution is responsible for an alleged abuser/s having contact with them as a child. In considering whether there was reasonable likelihood, all the information available must be taken into account.

Where a participating institution does not hold a record (i.e. historical information), the Scheme Operator will not be precluded from determining a person's entitlement to redress. The information to be considered by the Scheme Operator includes:

- The information contained in the application form (or any supplementary information provided by a person by way of statutory declaration);
- Any documentation a person provided in support of their application;
- The information provided by the relevant participating institution/s in response to a Request for Information from the Operator, including any supporting documentation provided; and
- Any other information available including from Scheme holdings (for example where the Scheme has built up a picture of relevant information about the same institution during the relevant period, or the same abuser).

It should be noted that the 'reasonable likelihood' standard of proof applied by the Scheme is of a lower threshold (or a lower standard of proof) than the common law standard of proof applied in civil litigation – the 'balance of probabilities'. Please see 11.7 of the Royal Commission's *Redress and Civil Litigation Report (2015)* for additional information on the difference between the two.

MAXIMUM PAYMENT AND SHARED RESPONSIBILITY

The amount of redress payment a person can receive depends on a person's individual circumstances, specifically the type of abuse the person experienced.

A person may only make one application for redress. The maximum redress payment payable under the scheme to an applicant is \$150,000 in total.

The payment of redress is made by the institution(s) found responsible for exposing the individual to the circumstances that led to the abuse.

There may be instances where one or more institutions are found to be jointly responsible for the redress payment to a person, and instances where a person may have experienced abuse in one or more different institutions. In such situations, the redress payable by an institution will be apportioned in accordance with the Scheme's assessment framework - see <https://www.legislation.gov.au/Details/F2018L00969> and method statement - see <http://guides.dss.gov.au/national-redress-guide/4/1/1>

Prior payments made by the responsible institution for the abuse to the applicant (e.g. ex-gratia payments) will be taken into account and deducted from the institutions' redress responsibility.

EFFECT OF AN APPLICANT ACCEPTING AN OFFER OF REDRESS

Accepting an offer of redress has the effect of releasing the responsible participating institution/s and their officials (other than the abuser/s) from civil liability for instances of sexual abuse and related non-sexual abuse of the person that is within the scope of the Scheme. This means that the person agrees to not bring or continue any civil claims against the responsible participating institution/s in relation to any abuse within the scope of the Scheme.

If a responsible participating institution/s is a member of a participating group, the person will be releasing the other associated institutions and officials within that group from any civil liability for instances of sexual abuse and related non-sexual abuse of the person that is within the scope of the Scheme.

Accepting an offer of redress also has the effect of preventing a responsible participating institution from being liable to contribute to damages that are payable to the person in civil proceedings (where the contribution is to another institution or person).

In accepting the offer of redress, a person will also be consenting to allow the participating institution/s or official/s to disclose the person's acceptance of redress offer in the event that a civil claim is made. The Scheme must provide a copy of the person's acceptance of offer to each responsible institution for their records once received.

Note – the acceptance of an offer of redress does not exclude the pursuance or continuance of criminal proceedings against the abuser(s).

Development of a new 100M Range & Enhancements in Ravensthorpe

Dear Gavin,

We hope all is well with yourself & your colleagues in these trying times?

We have had some delays with the progress of our project obviously due to the Covid-19 situation. I think we are all aware now of just how serious this event has impacted on all avenues of people's general health and the economy.

RHGC is no exception and hence we are in a situation where we would like to request an extension to the completion date of our current project. We have sent formal correspondence to CSRFF & RHFF to ask the same.

Our project got off to a flying start early in the year with the major part of the earthworks completed on time & on budget. We purchased a water tank and culverts as well as other sundry items. We spent time with the design and finalised all the documentation. We are informed we should have our building licence this week. We have also constructed formwork for our shooting tables etc.

We appreciate the funding payments from Council thus far to assist us as a major contribution towards our project. At this stage we had already commenced the confirmed design of the shed and instigated planning approval and research to confirm quotes on the definitive engineered drawings etc.

We chose Coastline Sheds to go ahead with the supply of a shed and they have experienced delays themselves and we now find that the shed will only be available to collect ex Perth on the 2/6/2020.

This now leads to a compounding affect that would not give sufficient time to complete our project.

RHGC formally wishes to apply for an extension to the proposed completion date of 1/7/2020 until Tuesday 1st September 2020?

We eagerly await your consideration and hope it will be favourable so we may get back on track and complete our project in a timely & successful manner?

Yours sincerely

Mr Bill Auburn

President RHGC Inc.

DRAFT

Current Fitzgerald Coast Logo

The two logos are the same except for the line through the brown to depict a road leading through the range. This helps to make the shape look more like a range and shows that it is accessible.

Unfortunately I did not have access to the original font Avenir (but a graphic designer would) to use in the draft concept. A font closest to the original has been selected.

Colours which have changed include:

- YELLOW: Crops, farming even flowers
- RED: Mining and flowers.

The remaining colours depicted on the original logo represent:

- Green: Reserves
- Brown: Ranges
- Turquoise: Ocean
- Teal-Green: Biodiversity.

IMPORTANT TO NOTE: When determining the exact shades of colour on a logo a spot colour chart (ie PMS code) would be allocated and this would be presented in final format a style guide.

**Fitzgerald
coast Biosphere**

VERSION ONE (A) No line through the range (brown shape). All text have been bolded.

**Fitzgerald
coast Biosphere**

VERSION ONE (B) A line has been placed through the range (brown shape) and all text bolded.

VERSION ONE (B)

Here are some examples on what the logo would look like as a single colour or in greyscale as variations on how the logo could be used.

The Fitzgerald Coast Biosphere logo is to form a part of PLACE BRANDING strategy for our region which should be encouraged and used by locals, community groups and businesses within the region.

To develop a place brand would normally involve extensive community consultation. A revision of the Fitzgerald Coast logo is not to replace this process. However, due to the current situation resulting from the pandemic on tourism and the focus by government on promoting domestic tourism, there is an urgency to start pushing our point of difference which is the Fitzgerald Biosphere as an important, unique and significant destination.

Changing the name to include the word Biosphere is the key focus of this edit. Further work later can be undertaken on the logo design and this should go through the normal consultative process.

Image will be the same as version one B

VERSION TWO (A)

Image will be the same as version one B (I prefer the line through the range)
However, when comparing the two version please consider the text.

In this version the text has been modified to be closer to the original font and style of the Fitzgerald Coast logo to provide some continuity to the brand.

The text is cleaner to read with an emphasis on the word Biosphere without losing the presence of Fitzgerald Coast. In addition in the example at the bottom of the page, although the two FCB logos are the same size, the words Fitzgerald Coast is easily readable on the version two example.

VERSION TWO (B) PREFERRED OPTION

When comparing the two version please consider the text.

In this version the text has been modified to be closer to the original font and style of the Fitzgerald Coast logo to provide some continuity to the brand.

The text is cleaner to read with an emphasis on the word Biosphere without losing the presence of Fitzgerald Coast. In addition in the example at the bottom of the page, although the two FCB logos are the same size, the words Fitzgerald Coast is easily readable on the version two example.

Although the logo has been reduced in size which is common on advertising, brochures etc the colours and the word "Biosphere is easily identifiable)

EXAMPLES OF PLACE BRANDING LOGOS

'I Love New York' is popularly considered the most effective and leading effort to brand a city. There was a popular idea during the 70s that New York City was a dark, danger-riddled place. Legendary graphic designer Milton Glaser was briefed by New York State to create a symbol that the people of New York could get behind to start to believe that their city was one to be proud of.

In its applications on merchandise, businesses, posters, t-shirts etc 'I Love New York' as it was adopted by all parts of the city. It was pitched as a symbol for the future and became a catalyst for internal and external change.

All land except exempt land in the Shire of Ravensthorpe is rated according to its Gross Rental Value (GRV) in townsites or Unimproved Value (UV) in the remainder of the Shire.

The general rates detailed above for the 2019/20 financial year have been determined by Council on the basis of raising the revenue required to meet the deficiency between the total estimated expenditure proposed in the budget and the estimated revenue to be received from all sources other than rates and also bearing considering the extent of any increase in rating over the level adopted in the previous year.

The minimum rates have been determined by Council on the basis that all ratepayers must make a reasonable contribution to the cost of the Local Government services/facilities.

Implementation Guide

Volunteer Bush Fire Service WA

Bush Firefighter Training Program

Training Programs Principles

Training Programs are a role-based training framework designed for progressive and safe training.

Training content is designed to be delivered in a flexible manner, either as a full course delivered over a weekend or, depending on the course, modularised and delivered over a timeframe that better suits the local environment.

A Training Program may include Training Streams related to specific response or capability roles, such as Pump Operator or Advanced Bush Firefighter. Within each Training Stream there are one or more required courses, which must be completed to complete that Training Stream. You may participate in more than one Training Stream simultaneously.

The Training Streams are designed to provide:

- **Ease of targeting brigade profile requirements**
Be easy for Brigades, Local Governments and DFES Regions to target brigade training needs
- **Flexibility**
Allow volunteers more flexibility in their training; and
- **Choice**
Be easy to understand and complete.

You are encouraged to complete the Bush Firefighter Training Program and the Advanced Bush Firefighting Training Stream prior to enrolling on any of the BFB Leadership Training Stream courses.

Training Programs Entry

You will automatically be enrolled on the Bush Firefighter Training Program, once you have completed a volunteer membership application and have a DFES volunteer number.

Training Prerequisites

DFES and the Association of Volunteer Bush Fire Brigades WA acknowledge that it is better that volunteers complete the courses in the specified order; however, course cancellations do happen and can affect a volunteer's attempts to complete a Training Program or Training Stream.

Volunteers can complete courses within specific Training Streams out of the specified order, unless otherwise illustrated in the Training Program with an arrow.

Completion Requirements

To complete the Bush Firefighter Training Program, you will need to complete all the courses listed on the Training Program.

Training Programs Progress – Next Steps

Once you have completed the Bush Firefighter Training Program Training Program, you will be automatically enrolled on the Advanced Firefighter Training Program.

Associated Roles

When you have completed this Training Program, you will have the skills and competencies required to be present on the fire ground under supervision.

Recommended Timeframe

It is up to your Local Government to establish the requirements that apply to your brigade. DFES recommends that volunteers complete the Bush Firefighter Training Program in three (3) to eighteen (18) months.

Brigades/Local Governments may specify other rules and regulations around the timeframe to complete training, depending on your circumstance.

Recognition

Contact the Academy at academy@dfes.wa.gov.au for further details if you would like to enquire about the Recognition of Current Competencies (RCC) process. This process may be used to recognise your existing skills, knowledge and experience in a course.

Additional Approvals

Training course applications can be submitted via eAcademy or through your Local Government.

In addition to your Brigade Supervisor, applications need to be approved by:

- *The applicable Local Government manager for your Brigade (nominally your Local Government's Training Coordinator, Chief Bush Fire Control Officer or Community Emergency Services Manager).*

Training Program Changes/Review

The nominated Training Program Manager, in consultation with the Association of Volunteer Bush Fire Brigades WA, reviews this Training Program annually.

Changes to the Training Programs and Training Streams will be incorporated in the transition notes below. Enrolled students will be notified if action is required.

The Training Program Owner is Deputy Commissioner Operations.

Questions regarding this Training Program can be directed to the Training Program Manager, Superintendent Operational Delivery.

8.1 - Quick Debrief of recent Fires

Review of both Forrestania Bushfire Complex and Ravensthorpe Lightning Event-
What did we do well?

- Excellent roll up of volunteers.
- Shire did great work in setting up, information being sent out.

Where do we need improving?:

- Laurina Rd fire notification approved for heavy machinery was delayed.
- Machine availability – Graham Hobbs, was available and didn't receive a phone call.
- Forrestania Fire being controlled by IMT situated in Hyden, late alerting Shire of Ravensthorpe – require better communications.
- Highlighted Shire needs for a Bush Fire radio in equipment.
- Telstra tower outages during the bushfire for 3-4 day, in particular Stennards Lake.

8.2 - Review of Fire Break Notice

Mr Ashley Peczka asked the committee if there was anything that need to changed or amended within the Fire Break Notice?

At this stage, the following points are to be added;

- Minimum water requirements for header in paddocks.
- Update Fire Control Officer contact details.

FCO's to get back to the Shire if there are any further changes required.

8.3 - Review of Minimum Training Standards

Mr Ashley Peczka advised the committee our current minimum training standards for our Bush Fire Volunteers as required by the committee is;

- Introduction to Bushfire Fire Fighting
- AIMS Awareness

DFES have released new Bushfire Training modules and from 1 July 2020 will see the Introduction of Bushfire Fire Fighting (IBFF), Introduction to Fire Fighting (IFF) and Bushfire Fire Fighting (BFF) will become obsolete, requiring the committee reconsider our minimum training standards.

Modular training can be delivered over a course of nights or over a whole day to assist in flexible learning practices based upon the availability of volunteers. Those volunteers currently hold Introduction to Bushfire Fire Fighting course will be RPL'd across to Bushfire Safety Awareness module of units. Volunteers currently hold Introduction to Fire Fighting (IFF) and Bushfire Fire Fighting (BFF) will be RPL'd for the whole BFS Bush Firefighter

OFFICER & COMMITTEE DECISION

Moved: Mr Rod Daw

Seconded: Mr Gary Webster

Recommend the Shire of Ravensthorpe adjust the training standards for Bush Fire Volunteers to the new Bushfire training modules, where volunteers will need to complete the modules listed under the BFS Bush Firefighter.

Carried

8.4 - Mitigation Burning

Mr Ashley Peczka discussed the various mitigation burns programmed via the Mitigation Activity Fund (MAF) work for brigades to be part of. The committee was asked to nominate and advise by the 31 March, what burns they would like to assist with and what month would be better suited the availability of volunteers.

8.5 - Firey's Fortnight

Mr Rod Daw would like brigades and volunteers to set aside a fortnight in June to carry out various winter hazard reduction activities around the Shire.

Brigades are to identify areas of concern, whether that is roadside burning, bush blocks, etc. Identified areas will need to be provided to Rod by 31 March 2020, for identified locations to be checked referred by Parks & Wildlife.

8.6 - ROAC's coordinated approach to LGGS

Mr Ashley Peczka advised the committee a proposal was submitted by the City of Albany to the Regional Operations Advisory Committee (ROAC) instead of individual Local Governments bidding against it each other for Capital Grants, Appliance and Equipment that each Local Government prioritises their individual needs. ROAC can combine all the priority requests for a collaborative approach at a regional level, in partnership of other Lower Great Southern Local Governments to help push these priority needs as a regional focus to DFES.

OFFICER & COMMITTEE DECISION

Moved: Mr Reece Laycock **Seconded: Mr Andrew Chambers**
Recommend the Shire of Ravensthorpe to support the concept of working in collaboration with the Great Southern Regional Operational Advisory Committee and Lower Great Southern Local Governments for future Resource to Risk Capital Funding and Resource request.

The brigade has discussed with the Cocanarup Brigade executives in shifting brigade boundary to take in the Ravensthorpe Ranges estate as part for them to increase their membership base.

Mr Andy Daw also requested to the committee for the Bandalup Bush Fire Brigade to change the brigade name to East Ravensthorpe Bush Fire Brigade. This is to increase the knowledge as to where the brigade is located and increase their changes in obtaining resources and equipment if decision makers know their location more easily.

OFFICER & COMMITTEE DECISION

Moved: Mr Andrew Daw **Seconded: Mr Rodney Daw**
1) To realign Brigade western boundary to the eastern side of the Town Boundary
2) Bandalup Bush Fire Brigade to change brigade name to be known as East Ravensthorpe Bush Fire Brigade
